

About your organisation		
Name of the organisation:	WWF Switzerland	
Membership number:		
What is the primary activity or product of your organisation?	WWF's mission is to stop the degradation of our planet's natural environment, and build a future in which humans live in harmony with nature. To achieve this, we are working with our many partners to: 1. Save biodiversity, and 2. Reduce humanity's impact on natural habitats. WWF Switzerland is implementing these targets within Switzerland and in collaboration with various Swiss stakeholders and other WWF entities.	Other, please specify
Operations and certification progress		
Activities undertaken to promote sustainable palm oil to date	WWF Switzerland was a founding member of the RSPO and involved in the board until 2008. More recently we have been involved in liaising with Swiss stakeholders in an effort to promote use of sustainable palm oil. Upon request we let companies know how they can switch their procurement to sustainable palm oil. In the last year we have fielded press interviews and responded to media requests on the topic of sustainable palm oil, and we are interacting with Swiss NGOs. We have answered numerous queries by the Swiss public about palm oil, in an effort to assure them that while some criticisms about the RSPO are valid, we continue to support the RSPO and sustainable palm oil.	
Other information		
Other information (sustainability reports, policies, other public information)	Our annual report (in German) is available under: https://assets.wwf.ch/custom/magazin/pageflipers_max/jahresbericht2010wwf/blaetterkatalog/index.html
