Timebound plan - Year that you expect to supply 100% certified sustainable palm oil?		Comments	<p>The process of the certified sustainable palm oil in Colombia is led by Fedepalma - National Federation of Oil Palm Growers of Colombia. When they finish the process with all the national growers we will can start to supply a certified oil. In the meantime, RSPO doesn't include our type of company on the supply chain certification, for that reason we are waiting that the organisation open new ways of certification to apply.</p>
