Please provide links for reports that may be relevant to Sustainable Palm Oil.

Griesson - de Beukelaer relies on the use of palm oil and palm kernel oil from sustainable sources. Since 03/29/2010 we are a member of the RSPO and support the cultivation and use of certified palm oil. Our goal is the timely use of certified palm oil and palm kernel fat in all products. The conversion is dependent on the availability of palm fat raw materials and thus can take several months to years. By 2015 the used palm oil and palm kernel fat should come from fully sustainable, segregated crops. Already in 2012 we will reach a share of more than 85% of sustainably grown palm oil and palmkernel oil

Time-bound plan

Time-bound plan - Year expected to achieve 100% RSPO certified sustainable palm oil used in all brands that you manufacture:2015

What are your interim milestones towards achieving this RSPO Certified Sustainable Palm Oil Commitment (year and progressive CSPO%) - please state annual targets/strategies:

We plan to switch to segregated palm oil as soon as possible and want to reach 100% by 2015. The timebound plan depends on the availability of CPO & CPKO and its derivatives and the integration of small volume suppliers and small volume products like emulsifiers or flavourings based on palmoil into the process.

Targets for next reporting period

Outline actions that will be taken in the coming year to promote RSPO Certified Sustainable Palm Oil: Increasing the part of certified CPO, CPKO and derivatives to 95%

Increasing the part of segregated CPO, CPKO and derivatives to 25%
