Please provide links for reports that may be relevant to Sustainable Palm Oil.

FUJI OIL GROUP places a high priority on safety and product and environmental integrity. We constantly make our own production environments more eco-friendly.

Although more beyond our control (we do not operate plantations), we also share the growing concerns around sustainable agriculture.

As a palm oil processor and as a member of the Roundtable on Sustainable Palm Oil (RSPO), we support the defined Principles and Criteria of this multi-Stakeholder organisation.

As a pure processor, in the Supply Chain between plantations and consumer product manufacturers, we want to contribute to the growth of production and use of RSPO Certified Sustainable Palm Oil at an economically sustainable cost.
