We aim to ensure that we do not source biofuels that may have involved a violation of human rights (including child or forced labour) or the clearing of areas of high biodiversity value.

Where there are regulatory requirements in place, such as the European Union, then Shell will comply by purchasing biofuels that meet the regulatory requirements. The preferred approach for compliance is via certification against recognized credible voluntary sustainability standards. The RSPO is Shell's preferred standard for palm oil. However, the RSPO is not yet approved by the EC for use in meeting the RED, so Shell is obliged to use the ISCC standard instead for Europe.

Apart from these volumes in Europe, 100% of Shell's palm oil purchases are RSPO certified. We prefer to purchase mass balance certified material but where this is not available (or insufficient), we purchase Greenpalm credits to compensate for the palm oil purchases.

Targets for next reporting period

Outline actions that will be taken in the coming year to promote sustainable palm oil:

Shell has been active in supporting the RSPO on the GHG working group, the Trade and Traceability standing committee, the RED task force, the P+C review task force and the Claims and Communications standing committee. Shell continues to engage externally with many key stakeholders advocating the benefits of robust multistakeholder roundtable standards.

Own branded diesel at retail sites may be purchased from other oil companies (most of whom are not RSPO members.) If the sales are duty paid, we are not entitled to request information regarding the feedstock, country of origin or certification status of the biofuel in the diesel. Generally, Shell focusses on ensuring that our own purchases of palm oil methyl ester for blending into diesel are 100% certified (by RSPO or ISCC).

Targets for next reporting period

Outline actions that will be taken in the coming year to promote sustainable palm oil:

Shell continues to promote the benefits of robust multistakeholder certification schemes. Shell is a presenter at an IPIECA conference in September 2012 on the subject of certification schemes. IPIECA is the international petroleum industry association.
