Time-bound plan

Time-bound plan - Year expected to achieve 100% supply chain certification

What are your interim milestones towards achieving this CSPO Commitment (year and progressive CSPO%) - please state annual targets/strategies

We hope to receive the completed supply chain certification, which is not available yet to us, because we buy our palm oil exclusively from Agropalma / Brazil, and - although they are certified RSPO, their supply chain certification is not available yet (no segregation between RSPO and non RSPO palm fruit practiced yet). This will happen in late 2013. We look forward to that.

Time-bound plan - Year expected to supply 100% certified sustainable palm oil

2014

What are your interim milestones towards achieving this CSPO Commitment (year and progressive CSPO%) - please state annual targets/strategies

we already buy only certified organic and sustainable / certified RSPO palm oil - and we feel that we only need the supply chain certification to complete our goals. But that depends on Agropalma's action plan.

Targets for next reporting period
