2015

What are your interim milestones towards achieving this CSPO Commitment (year and progressive CSPO%) - please state annual targets/strategies

We have not set interim milestones but we have an objective of using 100% certified palm oil based raw materials within 2015.

The demand is, however, influenced by the multinational companies that have set targets for their conversion of their consumption of traditionally produced palm ingredients to RSPO certified palm produce. Some of our raw materials, based on palm oil, is not yet available as RSPO certified.
