State your policy on palm oil (Please provide links, upload attachments or complete the text box)

Please provide links for reports that may be relevant to Sustainable Palm Oil.

The Task Force on Sustainable Palm Oil was formally founded in November 2010 as an initiative of the Product Board for Margarine, Fats and Oils (MVO). It is an alliance of the Netherlands-based links in the palm oil chain. The Task Force signed a manifesto with the objective to have all palm oil destined for the Dutch market sustainable by the end of 2015.

November 2011

The Task Force published a factsheet Sustainably produced palm oil: the norm in 2015 in English and Dutch. This factsheet explains what sustainable palm oil is, what systems exist for the trade in sustainable palm oil and how companies are allowed to communicate about its use. A guideline for companies for the transition towards sustainable palm oil is presented in a flowchart.

March 2012

The Task Force further published its first Annual Report on 100% Sustainable Palm Oil: The Norm in 2015. This report contains the results achieved and the activities undertaken by the Task Force in 2011. The most important result for 2011 is that 21% of the palm oil used for the Dutch market was produced sustainably by the RSPO standards.

Time-bound plan

Time-bound plan - Year expected to achieve 100% supply chain certification

2015

What are your interim milestones towards achieving this CSPO Commitment (year and progressive CSPO%) - please state annual targets/strategies

Time-bound plan - Year expected to supply 100% certified sustainable palm oil

2015

What are your interim milestones towards achieving this CSPO Commitment (year and progressive CSPO%) - please state annual targets/strategies

In March 2012, the percentage of CSPO destined for the Dutch food market was 21%.

The annual targets are as follows:

2012: 25% of the total amount of palm oil destined for the Dutch Food market is sustainable.

2013: 50%

2014: 75%

2015: 100%

Targets for next reporting period

Outline actions that will be taken in the coming year to promote sustainable palm oil:

Promote the trade and use of sustainable palm oil in the whole supply chain. The Dutch Task Force will meet every two months to evaluate and discuss issues with this transition process. It is important to focus on the (im)balance between supply and demand. At the same time, the Task Force advises other EU countries in the transition towards sustainable palm oil in close collaboration with RSPO (H+K).
