Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

It has taken some time for our supplier to implement the infrastructure to facilitate a 100% segregated supply to our business. We have been working closely with them to speed up this process. In the public domain, there is still a lot of misinformation around CSPO, we have been working with the WWF on promoting better education around CSPO and the benefits.

2 How would you qualify RSPO standards as compared to other parallel standards?

--

Cost Effective:

Yes

Robust:

Yes

Simpler to Comply to:

3 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

Arnott's has engaged with WWF & AFGC to keep them updated on our progress to 100% CSPO. These parties have been invited to tour our factories to gain a better understanding of palm usage
