Time-Bound Plan

2.1 Date of first supply chain certification (planned or achieved)

2015

2.2 Time-bound plan - Year expected to achieve 100% RSPO certification of all supply chains

2020

2.3 What are your interim milestones towards achieving this RSPO certification commitment (year and progressive CSPO%)? Please state annual targets/strategies.

Currently, CI Acepalma doesn't calculate how many milestones of sustainable palm oil will be traded in the next year. However, we must take in count that in Colombia we are on the process with the growers and mills, and as a trader, Acepalma has to wait until they inform the progress on the production of sustainable palm oil.

In the meantime, we have the following schedule:

Year Percentage of RSPO in the total of PO traded

2015 10%

2016 20%

2017 40%

2018 70%

2019 90%

2020 100%

2.4 Timebound plan - Year expected to only "handle/supply" RSPO certified oil palm products

No

Please explain why:

Because our suppliers are just getting the process for certification and here in Colombia we are adjusting the criteria to our national situation, for that reason, our suppliers don't have any measure of the GHG and we can't make any public commitment.
