Do you have plans to?

Yes

--

9.1 Do you have plans to immediately cover the gap using Book & Claim?

No

- How and when do you plan to immediately cover the gap using Book & Claim?

--

-

only small amounts of our PO, PKO and palm-based derivatives are not yet certified. We support our suppliers to become a RSPO member and during the certification process to close this gap

Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

The reduction of toxicological 3-MCPD-esters becomes more and more relevant. By this palm oil is replaced by modified palm oil or palm based derivatives which are not yet available in segregation quality.

For composed ingredients, which have several suppliers in the supply chain, a lot of suppliers have to become RSPO members. It takes more time than planned but we support our suppliers during the certification process

2 How would you qualify RSPO standards as compared to other parallel standards?

--

Cost Effective:

Yes

Robust:

Yes

Simpler to Comply to:

equal

3 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

We are in regular contact to our suppliers und costumers to promote the use of certified palm oil.

Our company has switched to at least Mass Balance for all palm-based ingredients wherever possible.
