Oil Palm Growers

Operational Profile

1.1 Please state your main activities as a palm oil grower

- Palm oil grower & miller

Operations and Certification Progress

2.1.1 Total landbank licensed / owned

123442.00

2.1.2 Total landbank for oil palm cultivation

97725.00

2.1.3 Total land managed for conservation that is set aside

4920.00

2.2.1 Mature area

45857.00

2.2.2 Immature area

8519.00

2.2.3 Total area of estate plantations - planted

54376.00

2.3.1 Area certified

56139.00

2.3.2 Number of estates/Management Units

33

2.3.3 Number of estates/Management Units certified

23

2.4.1 Indonesia - Please indicate which province(s)

- Bengkulu
- Sumatera Selatan
- Sumatera Utara

2.4.2 Malaysia - please indicate which state(s)

--

2.4.3 Other - please indicate which country(ies)

Papua New Guinea

2.5.1 Do you have smallholders as part of your supply base?Yes

2.5.2 Schemed

- schemed
 - associate
-

2.6.1 Area planted in this reporting period1378.00

2.6.2 Have New Planting Procedures notifications been submitted to the RSPO for plantings this year?Yes

2.7.1 Do you source for FFB from third parties i.e. FFB that is not sourced from your own plantation(s), scheme smallholders or contracted outgrowers?--

2.8.1 Number of Palm Oil Mills operated6.00

2.8.2 Number of Palm Oil Mills certified6.00

2.8.3 Number of Palm Kernel crushers and/or Palm Kernel mills operated2.00

2.8.4 Number of Palm Kernel crushers and/or Palm Kernel mills certified2.00

2.9 Total annual Crude Palm Oil production capacity271941.00

2.9 Total annual Palm Kernel production capacity34842.00

2.9 Total annual Palm Kernel Oil production capacity11320.00

2.9 Total annual FFB processing capacity1130397.00

3.1 Which supply chain options do you sell RSPO-certified palm oil products through?

- Book & Claim
 - Mass Balance
 - Segregated
-

Time-Bound Plan

4.1 Date of first RSPO estate certification (planned or achieved)

2009

4.2 Time-bound plan - Year expected to achieve 100% RSPO certification of estates

2011

4.3 What are your interim milestones towards achieving RSPO certification commitment (year and progressive CSPO%) - please state annual targets/strategies

New operations are certified as they reach maturity or when a new mill is commissioned.

4.4 Timebound plan - Year expected to achieve 100% RSPO certification of associated smallholders and outgrowers

2012

4.5 What are your interim milestones towards achieving this RSPO certification commitment (year and progressive CSPO%) - please state annual targets/strategies

Future additional associated smallholders will be certified within three years of entering our supply base.

4.6 Time-Bound plan - Year expected to achieve 100% RSPO certification of independently sourced FFB

--

4.7 What are your interim milestones towards achieving this RSPO certification commitment (year and progressive CSPO%) - please state annual targets/strategies

No independently sourced FFB in our supply bases.

4.8 Which countries that your organization operates in do the above commitments cover?

Indonesia, Papua New Guinea

5.1 With regards to the GA resolution 6g that call for map submission by ACOP 2014 deadline. Please upload your estate location concession maps in KML or SHP format here: (RSPO General Assembly resolution 6g calling for map submissions by ACOP 2014 deadline)

--

Concession map file

GHG Emissions

6.1 Are you currently assessing your operational GHG emissions?

Yes

6.1.1 what GHG assessment tool or method are you currently using?

Biograce and Palm GHG.

6.1.2 when do you plan to start assessing your operational GHG emissions in line with the requirements of C5.6?

--

6.2 What is your operational GHG emission value (tCO₂e/tCPO)? (refer to P&C C5.6)

--

6.3 What is the projected GHG emission associated with your new plantation development(s) (tCO₂e)? (refer to P&C C7.8)

--

Actions for Next Reporting Period

7.1 Outline actions that you will take in the coming year to advance your plans for certification

Continue systematic certification of operations coming to maturity and compliance with RSPO NPP for new projects.

7.2 Outline actions that you will take to promote CSPO along the supply chain

Continued advocacy of importance and benefits of RSPO-certified palm products to fellow planters and to our customers.

Reasons for Non-Disclosure of Information

8.1 If you have not disclosed any of the above information, please indicate the reasons why

--

- Others:

--

Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

The gap between "conventional" and RSPO practices is wide, and has gotten wider with the adoption of the 2013 P&C.

This is creating issues at various levels : for employees, for contractors, and for new projects. The RSPO P&C also exceed local regulations (HCV, HCS and GHG considerations). As the physical market for RSPO-certified palm products remains limited, and as recognition for RSPO certification is currently still limited, compliance with RSPO P&C is placing growers at a disadvantage to their "conventional" competitors.

2 How would you qualify RSPO standards as compared to other parallel standards?

--

Cost Effective:

No

Robust:

Yes

Simpler to Comply to:

similar

3 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

SIPEF remains an active member of the RSPO, co-chairing the BHCV-WG and CTF, as well as participating in the T&T Standing Committee and Complaints Panel.

4 Other information on palm oil (sustainability reports, policies, other public information):

N/A
