Palm Oil Processors and Traders**Operational Profile****1.1 Please state your main activity(ies) within the supply chain**

- Others:
Palm Kernel Crusher

1.2 Operation and Certification Progress

--

1.2.1 Do you have a system for calculating how much palm oil and palm oil products you use?

Yes

1.3 Total volume of all palm oil products handled in the year (Tonnes)

--

1.3.1 Total volume of Crude Palm Oil (CPO) handled in the year (Tonnes)

--

1.3.2 Total volume of Palm Kernel Oil (PKO) handled in the year (Tonnes)

46,000

1.3.3 Total volume of other Palm Oil Derivatives and Fractions handled in the year (Tonnes)

--

1.3.4 Total volume of all palm oil and palm oil derived products handled in the year (Tonnes)

46,000

1.4 Volume handled in the year that is RSPO-certified (Tonnes):

| No | Description | Crude Palm Oil (Tonnes) | Palm kernel oil (Tonnes) | All other palm-based derivatives and fractions handled in the year that is RSPO-certified (Tonnes) |
|-------|--|----------------------------|-----------------------------|---|
| 1.4.1 | Book & Claim | - | - | - |
| 1.4.2 | Mass Balance | - | 594.00 | - |
| 1.4.3 | Segregated | - | 190.00 | - |
| 1.4.4 | Identity Preserved | - | - | - |
| 1.4.5 | Total volume of Oil Palm handled that is RSPO-certified: | - | 784.00 | - |

What is the percentage of certified sustainable palm oil in the total palm oil your company sells in:

Europe --%
India --%
China --%
South East Asia --%
North America --%

What is the percentage of certified sustainable palm kernel oil in the total palm kernel oil your company sells in:

Europe --%
India --%
China --%
South East Asia --%
North America --%

Time-Bound Plan

2.1 Date of first supply chain certification (planned or achieved)

2014

2.2 Time-bound plan - Year expected to achieve 100% RSPO certification of all supply chains

2025

2.3 What are your interim milestones towards achieving this RSPO certification commitment (year and progressive CSPKO)? Please state annual targets/strategies.

As we started to transact RSPO Certified CPKO only from October 2014, we target to do 20% of our overall production for 2015. Thereafter, we target to increase by additional of 8% each year till we achieve 100% by 2025.

2.4 Timebound plan - Year expected to only "handle/supply" RSPO certified oil palm products

2025

2.5 What are your interim milestones towards achieving this RSPO certification commitment (year and progressive CSPKO)? Please state annual targets/strategies.

We shall start with a 20% target for 2015, handling about 9,000mt of CSPKO and by 2010, we target to achieve 60% of total production of CSPKO of 27,000mt.

2.6 How do you promote RSPO and RSPO certified sustainable palm oil to your customers proactively?

We regularly encourage our buyers to opt for CSPKO instead of the regular PKO during our trading encounters. We intentionally build up business relationships with and give preference to RSPO Certified Buyers in our sales as a form of support and promotion for the overall RSPO initiative.

GHG Emissions

3.1 Are you currently assessing the GHG emissions from your operations?

No

Please explain why

We are palm kernel crusher using mechanical pressing method.

3.2 Do you publicly report the GHG emissions of your operations?

No

Please explain why

No a legal requirement in our operation.

Actions for Next Reporting Period

4.1 Outline actions that you will take in the coming year to promote CSPO use along the supply chain

Continue to encourage and promote CSPKO sales to our supply chain buyers by establishing more customers.

Reasons for Non-Disclosure of Information**5.1 If you have not disclosed any of the above information please indicate the reasons why**

--

Application of Principles & Criteria for all members sectors**6.1 Related to your sourcing, do you have (a) policy/ies, that are in line with the RSPO P&C such as:****6.2 Where relevant, what prevents you from trading/processing only CSPO?**

Presently, the availability of RSPO Certified Palm Kernels is limited to the few Certified Mills and it just do not make up for the volume that we do. We look forward to the targeted gradual increase in the availability of RSPO Certified Palm Kernels in the years to come which will result in our increase in trading and processing of CSPKO.

Commitments to CSPO uptake

As you don't source 100% CSPO through physical supply chains (IP/SG/MB), please answer the following questions: Do you have plans to?

No

Please explain why:

We only source for palm kernels

7.1. Do you have plans to immediately cover the gap using Book & Claim?

No

Please explain why:

Being a palm kernel crusher and also still new to RSPO, we need to explore the availability of and sourcing for RSPO Certified palm kernels under the Book & Claim Module. We will need to further study this option if available to us.

Concession Map

Do you agree to share your concession maps with the RSPO?

No

Please explain why: --

Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

Limited RSPO Certified Mills in Peninsular Malaysia and so limited availability of RSPO Certified Palm Kernels which is our raw material.

Buyers of CSPKO is also similarly limited. We have no problem to increase volume once these two factors increase in their uptake in the coming years.

2 How would you qualify RSPO standards as compared to other parallel standards?

--

Cost Effective:

No

Robust:

No

Simpler to Comply to:

Yes

3 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

We intentionally look out to produce more CSPKO for sale in support of the RSPO initiative. Since this is our first year, we have target to achieve 20% of our production to be CSPKO and by this it speaks for itself.

4 Other information on palm oil (sustainability reports, policies, other public information)
