## Supply Chain Associate

### Operational Profile

#### 1.1. What are the main activities of your organisation?

C D T Sidoli (Welshpool) Ltd is a family owned business based in Welshpool. We produce a large range of dessert products for the food service industry both here in the UK and for a number of EU countries. Branded products by our company are available through most major frozen food wholesalers. We also produce dessert products for a number of the major retailers. However, most of our N.P.D is for bespoke products for the major restaurants, hotels and foodservice groups in the UK. Our modern factory is located on a 5 acre site just outside Welshpool in Mid Wales. We employ over 300 staff from the local area, with some of our staff having worked for the company since the factory was built in 1982. The site has been constantly updated with over 6 million pounds being spent over the last 6 years.

#### 1.2. Activities undertaken to promote sustainable palm oil, the RSPO and/or members in the reporting period

We have already made significant progress in our Sustainable Palm Oil journey. In 2010 we started to support RSPO certified sustainable oil by becoming RSPO member and through the Green Palm "book and claim" scheme. By the end of 2015 we will endeavour to obtain the RSPO certification for around 20% of our finished products. CDT Sidoli (Welshpool) Ltd will trace all palm oil and derivatives through the supply chain from a known and certified source for the following Finished Products (see Appendix I) and will comply with the RSPO Standards for following Chain models: • Segregated (SG) • Mass Balance (MB) Furthermore CDT Sidoli (Welshpool) is already switching palm oil and its derivatives to sustainable certified wherever practical.

#### 1.3. Do you have any collaborations with the industry players/private sector to support them in the market transformation towards CSPO?

No

If yes, please give details:

--

If not, please explain why:

N/A

#### 1.4. Did members of your staff participate in RSPO working groups/taskforces in the reporting period?

No

#### 1.5. What percentage of your organization's overall activities focus on palm oil?

50

#### 1.6. How is your work on palm oil funded?

N/A

### Actions for Next Reporting Period

#### 2.1. Outline actions that will be taken in the coming year to promote sustainable palm oil.

In the coming years, we will increase the flow of Mass Balance or Segregated certified palm oil and palm oil derivatives. Our ultimate objective is to obtain all of our palm oil derived ingredients from certified traceable sources and to offer products to our clients which only contains ingredients that are certified.

## Challenges

**1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?**

By working together with our key palm oil suppliers, we believe that the palm oil industry can transform to 100% sustainable palm oil delivering social, environmental and economic benefits. Although we realise there are challenges in achieving this in the short to medium term, we believe that sustainable palm oil should be the norm and not the exception. Around 90% of all the ingredients containing palm oil and derivatives that C D T Sidoli (Welshpool) Ltd currently purchases are sustainable through a combination of traceable RSPO certified and Green palm certificates.

---

**2 How would you qualify RSPO standards as compared to other parallel standards?**

--

---

**Cost Effective:**

Yes

---

**Robust:**

Yes

---

**Simpler to Comply to:**

Yes

---

**3 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)**
