As an intermediary the percentage of CSPO we handle largely depends on other actors in the supply chain: producers as well as end consumers. The main factors that have continued to impact our operating performance are international CPO price, production volumes, and cost production. We have embedded sustainable practices in our day-to-day operations for years. We are constantly revitalising our SOPs to ensure that our sustainable operations are fully implemented.

---

### 2 How would you qualify RSPO standards as compared to other parallel standards?

---

### 3 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

GAR continues to work closely with RSPO to explore options to reform local and national laws and procedures to secure HCV areas and accommodate the RSPO P&C. GAR is also a member of the Dispute Settlement Facility Advisory Group, HCV Compensation Task Force, and the Biodiversity and High Conservation Values Working Group. Through IPOPOP KADIN, we collaborate with other companies to improve supply chain sustainability.
