Time-Bound Plan

2.1 Date of first supply chain certification (planned or achieved)

2012

Comment:

We rely on our customers to Switch to RSPO certified Palm Oil as we only fo back-to-back-Business. In previous years we had expected that more customers would have switched to RSPO until now, which has not happened.

2.2 Time-bound plan - Year expected to achieve 100% RSPO certification of all supply chains

2017

Comment:

Until 2017 we plan to handle only RSPO Quality for our products.

2.3 What are your interim milestones towards achieving this RSPO certification commitment (year and progressive CSPO%)? Please state annual targets/strategies.

Until the end of 2015: all purchased palm oil fractions and derivates should have been available as RSPO. This was not the case, for example: Palm 45 was not available in SG (only in MB). In 2016, we will handle only RSPO quality for some palm fat products and stop with conventioned palm fat. By the end of 2017: More than 50% of the handled volume is RSPO certified. Until 2017 we plan to handle only RSPO Quality for our products.

2.4 Timebound plan - Year expected to only "handle/supply" RSPO certified oil palm products

2017

2.5 How do you promote RSPO and RSPO certified sustainable palm oil to your customers proactively?

We participate in meetings about the RSPO as well as talk directly to our customers about the advantages of the RSPO. We mention in our product portfolio and our company presentation that we are RSPO certified and very conscious about the topic sustainability.

2.6 Which countries that your organization operates in do the above own-brand commitments cover?

- Germany

GHG Emissions

3.1 Are you currently assessing the GHG emissions from your operations?

No

Please explain why

We are a small company and we have not the financial resources to asses the GHG emissions. Never the less we have strong interest to do so.

3.2 Do you publicly report the GHG emissions of your operations?

No

Please explain why

We are a small Company and we have not the financial resources to asses the GHG emissions. Never the less we have strong interest to do so.

Actions for Next Reporting Period

4.1 Outline actions that you will take in the coming year to promote CSPO use along the supply chain

We will participate in meeting about the RSPO. We will put pressure in our suppliers to be able to deliver to us more SG Quality products. Here it is important to mention that we are not talking about crude palm oil. We are using refined, hydrogenated, re-esterfied, deodorized, bleached and fractionated palm oil products. We will continue to promote the RSPO to our customers. Additonaly, we are guest member of FONAP.

Reasons for Non-Disclosure of Information

5.1 If you have not disclosed any of the above information please indicate the reasons why
