**Time-Bound Plan****2.1 Date of first supply chain certification (planned or achieved)**

2010

**2.2 Time-bound plan - Year expected to achieve 100% RSPO certification of all supply chains**

2018

**2.3 What are your interim milestones towards achieving this RSPO certification commitment (year and progressive CSPO%)? Please state annual targets/strategies.**

We have the majority of our products supply chain certified but we are waiting for a cost effective way of sourcing sustainable Palm kernel oils.

**2.4 Timebound plan - Year expected to only "handle/supply" RSPO certified oil palm products**

2018

**2.5 How do you promote RSPO and RSPO certified sustainable palm oil to your customers proactively?**

We have a well established customer base now and communicate on a regular basis. The majority of the larger customers are also RSPO members so they are actively engaging with us.

**2.6 Which countries that your organization operates in do the above own-brand commitments cover?**

- United Kingdom

**GHG Emissions****3.1 Are you currently assessing the GHG emissions from your operations?**

No

**Please explain why**

We are only a trader-distributing products.

**3.2 Do you publicly report the GHG emissions of your operations?**

No

**Please explain why**

We are only a trader-distributing products.

**Actions for Next Reporting Period****4.1 Outline actions that you will take in the coming year to promote CSPO use along the supply chain**

The majority of our business is now sustainable and only palm kernel products left to change. Currently it is not economic to change but we do offer alternative products that are RSPO and supply chain certified.

**Reasons for Non-Disclosure of Information**

5.1 If you have not disclosed any of the above information please indicate the reasons why

## Application of Principles & Criteria for all members sectors

6.1 Related to your sourcing, do you have (a) policy/ies, that are in line with the RSPO P&C such as:

6.2 Where relevant, what prevents you from trading/processing only CSPO?

We are sourcing the majority of our products as sustainable. There is a cost to segregate the hydrogenated palm kernel we source which would make us un-competitive in the market.

---

## Commitments to CSPO uptake

As you don't source 100% CSPO through physical supply chains (IP/SG/MB), please answer the following questions: Do you have plans to?

Yes

Please specify:

As soon as it becomes commercially available to source hard palm kernel oil.

---

7.1. Do you have plans to immediately cover the gap using Book & Claim?

No

Please explain why:

There is little interest in the sector we supply HPKO to source sustainable but if they do require we already have non hydro and RSPO alternative products available.

---

## Concession Map

Do you agree to share your concession maps with the RSPO?

No

Please explain why: --

---

**Challenges**

**1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?**

We have been supplying RSPO products since they become available and have now converted the majority of our business over to a sustainable format.

---

**2 How would you qualify RSPO standards as compared to other parallel standards?**

--

---

**Cost Effective:**

No

---

**Robust:**

No

---

**Simpler to Comply to:**

Yes

---

**3 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)**

Silbury has been an active member of the RSPO since 2010 and was one of the main companies supplying sustainable palm and other products as and when they become available. We also work very closely with the main refineries in the UK to continue to educate both our own staff and customers to the point our main products are now sustainable.

---

**4 Other information on palm oil (sustainability reports, policies, other public information)**

There are no other reports to submit. Silbury's policy is to only source RSPO sustainable products with the exception of HPKO for the time being.
