Comment:

The progression of RSPO certification for smallholders and outgrowers depend very much on their own awareness and commitments. We do aware that as the core buyers of their crop, we too have the responsibility to guide and train their management regarding RSPO certification compliance process. However, we are not in the position to undertake any associated cost related to the RSPO compliance on all the smallholders and outgrowers In conclusion, this program requires much more time, effort and resources for better understanding by the smallholders and outgrowers.

4.5 What are your interim milestones towards achieving RSPO certification commitment (year and progressive CSPO%) - please state annual targets/strategies
