Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

El reto más complicado es el hecho que no se cuenta con instituciones reconocidas por RSPO cercanas a Guatemala que puedan dar soporte a las necesidades que tienen en las empresas, por otro lado, los estudios requeridos por RSPO, por ejemplo AVC, resultan ser demasiado costosos debido a la poca competencia de instituciones autorizadas que hay en la región centroamericana. En general, la limitante más grande para el logro de la certificación es la inversión económica para realizar la implementación versus los precios internacionales del producto. Llevamos 3 años trabajando en la implementación, por lo que considero que actualmente nos falta un 20% de la implementación para lograr la certificación. La estrategia a sido avanzar en un 30% anual de los cumplimientos de los P&C para podernos certificar en el presente año.

2 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

Agroaceite, S.A. cuenta con las clinicas medicas más modernas de la region, en donde se atienden a mas de 10 comunidades cercanas, los servicios en su mayoría son financiados por la empresa y atiende a personas sin discriminar su origen, además ofrece 2 jornadas dentales al año con el apoyo de la Universidad de Colorado de EEUU.
