Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

Purchase of some raw materials, e.g. aromatics, as RSPO certified is still difficult for our clients and constrains production of more certified goods. Negative promotion of palm oil by some NGOs encourages supply chain actors to substitute palm oil by raw materials.

2 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

Engagement with key stakeholders
