7.2 What best practice guidelines or information has your organisation provided in the past year, to facilitate the uptake of RSPO certified sustainable palm oil and oil palm products? What languages are these guidelines available in?

In 2016, we released the Restaurant Brands International Code of Business Ethics and Conduct for Vendors (the “Code”) to communicate our requirements and expectations with respect to business integrity, sustainability and working conditions. The Code outlines our expectations and provides direction to our commitments with respect to responsible sourcing practices. It directs vendors to our other policy documents and to our 2016 Sustainability Framework, in which we communicate our palm oil sourcing commitments.

Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

The most significant challenge we have faced is the availability of competitively priced physical supplies of CSPO. To ensure that we support the production of sustainable palm oil, we continue to require all of our palm oil suppliers to be members of the RSPO and to adhere to our Code of Business Ethics and Conduct for Vendors.

2 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

In addition to requiring all of our suppliers to be members of the RSPO, we supported the production of CSPO through the purchase of GreenPalm certificates and by sourcing approximately one third of the palm oil in our supply chain from RSPO-certified segregated supply. Our 2016 Sustainability Framework restated our commitment that, by 2020, all palm oil sourced, as well as palm oil and palm kernel oil used as an ingredient in our branded products, will be from suppliers who can verify sustainable production.
