- Labour rights
- Stakeholder engagement
- None of the above

7.2 What best practice guidelines or information has your organisation provided in the past year, to facilitate the uptake of RSPO certified sustainable palm oil and oil palm products? What languages are these guidelines available in?

Our raw material codification process now specifies palm kernel oil derivatives RSPO status must be included with all new raw materials being added. This is supplied to our chemical vendors in English.

7.3 Your answers above indicate that you are not yet using 100% RSPO certified palm oil and oil palm products. Do you have plans to immediately cover the gap using Book & Claim?

No

GHG Emissions

8.1 Are you currently assessing your operational GHG emissions?

No

Please explain why

It is in process, but not yet available.

Support Smallholders

9.1 Are you currently supporting any independent smallholder groups?

No

9.2 If no, do you have any future plans to support independent smallholders?

No

Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

Based on our initial data primary derivatives of palm kernel oil are much easier to gain transparency to than the multiple layers associated with complex chemical mixtures. We have integrated RSPO certification as part of our new ingredient usage requirements.

2 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

We are meeting with our chemical suppliers of palm derivatives to understand areas for immediate opportunity, and longer term projects.
