Participate to fair trade; Promote CSPO to all visitor from school (+3 000/years) Communication on magazine, internet

Reasons for Non-Disclosure of Information

8.1 If you have not disclosed any of the above information, please indicate the reasons why

Support Smallholders

9.1 Are you currently supporting any independent smallholder groups?

Yes

9.2 How are you supporting them?

First we will help them to be a formal cooperative. We wil help them to secure their land with government. We will give them technical support all year long We will give them plants

Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

1) HCV assessors training course with Proforest ; the schedule is full 6 months in advance and it does not exist here in Madagascar, so to conduct a HCV assessment for the new smallholder's plantation is very difficult. We will have training for a lead auditor 2) The surveillance audit cost the same as a main audit: cost effective is not affordable for a small company like us: RSPO have to consider smallholder economic viability for individual certification 3) French language should be encouraged to incorporate more smallholders here in Africa (Ivory coast, Cameroun, Bénin, Guinée, Burkina Faso.....) . 4) We need to interact between certified grower /mill: internet forum

2 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

We only sell our product to certified RSPO companies. We want to promote exclusively Identity Preserved CSPO labeling. We have an agreement with a private school Maison Familiale Rurale inside our plantation (<http://www.mfr.asso.fr/pages/accueil.aspx>) to make a RSPO /organic training book for school 1° We are already looking forward for RSPO NEXT Our policy already include: No Deforestation, No Fire, No Planting on Peat, Respect for Human Rights and Transparency 2) We are looking for ISO 14 0001 certification to improve our environment monitoring
