## Challenges

### **1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?**

1. Lack commitment of RSPO member companies to fulfill their obligation with regards to reducing potential conflict in social and environmental issue, as well as to resolving the current conflict. 2. Many parties still question the credibility of RSPO member companies over the certificates they already have RSPO really need to conducting proper supervision and strict monitoring over the process of certification. As NGOs, we will monitoring the implementation of the standard and keep raising up the voice of impacted communities against bad practice and bad behavior of RSPO member companies.

### **2 How has your organization supported the vision of RSPO to transform markets? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)**

We conducting some approach, eg: 1. Approaching National and Local Government to consider and acknowledge about global sustainable standard on production and consumption of palm oil and translate it to the legal frameworks; 2. Education to the public consumer especially in urban communities to be more aware about sustainable palm oil product; 3. Empowering indigenous and local communities to be able to engage with RSPO standard and mechanism, especially to used it for monitoring and controlled the production in the field; 4. Engaging and encouraging RSPO to really implement the standard in the operational levels, especially in handling and resolving conflict between community and RSPO member company; 5. Lobby to relevant stakeholders, in particular with buyer and market to be more aware and ensured the implementation of sustainable commitment by producer along the supply chain.
