Trademark Related

4.1 Do you use or plan to use the RSPO Trademark on your own brand of products?

No

Please explain why

Our products have limited space available on the packaging and with increasing regulatory requirements such as Health Star ratings, Country of Origin labeling, GMO labeling, and others, we do not have space for additional information on package. Information on our Palm Oil sourcing and commitments can be found on our website: <https://www.campbellsoupcompany.com/suppliers/responsible-sourcing/>

Actions for Next Reporting Period

5.1 Outline actions that you will take in the coming year to promote the use of RSPO certified sustainable palm oil and oil palm products along the supply chain

Arnott's was part of the Raise Your Palm campaign in the Taronga Zoo's Tiger Trek exhibit and continues to advocate for sustainable palm practices by working with WWF and other non-governmental organizations. Campbell joined the North American Sustainable Palm Oil Network, an industry coalition that aims to promote the use of certified palm in the North American market and plans to actively participate in the coalition over the next year.

We will continue to drive traceability in our supply chain by working collaboratively with our suppliers to better understand the source of our palm. Additionally we identified Palm as one of our priority ingredients for Campbell's Responsible Sourcing program.

7.2 What best practice guidelines or information has your organization provided in the past year to facilitate the uptake of RSPO certified sustainable palm oil and oil palm products? What languages are these guidelines available in?**Comment:**

In 2016 we published a more holistic set of supplier requirements in our publicly available Responsible Sourcing Supplier Code. This year, we've individually engaged all priority ingredient suppliers and asked them to acknowledge the Code and the expectations set forth therein. The Code is currently available in English but will be translated into Bahasa in Fiscal 18.

Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

In the last year we have noticed disconnects between RSPO and activist organization demands, with NGOs asking different companies to cease their relationship with suppliers that are in good RSPO standing. We also believe that there is still a lack of understanding among consumers about what the intentions of RSPO are and what it means to source sustainable palm.

2 In addition to the actions already reported in this ACOP how has your organization supported the vision of RSPO to transform markets in other ways? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

We work closely with our suppliers to help them understand the importance of RSPO and traceability in the palm oil supply chain. Arnott's keeps activist groups updated on our progress to be 100% CSPO and has invited different stakeholder groups to tour our facilities and gain a better understanding of our palm oil usage.
