Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

The availability of segregated palm, kernel and palm fractions for all our existing ingredients with the appropriate GE and ME levels. We are in close contact with our palm oil suppliers and support the improvement of better refinery processes To do this we use a toolbox to improve the production. We have also improved the origin of palm oil.

2 In addition to the actions already reported in this ACOP how has your organization supported the vision of RSPO to transform markets in other ways? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

We informed our suppliers about using SG products and educate about palm oil and the health aspects. We have become a FONAP member in 2014.
