Actions for Next Reporting Period**5.1 Outline actions that you will take in the coming year to promote the use of RSPO certified sustainable palm oil and oil palm products along the supply chain**

Using sustainable palm oil is a prerequisite of EDEKA's own brand products containing palm oil. It is one of the committed aims we agreed upon with our Partner for Sustainability, the WWF. To meet this requirement, our individual product specifications have been adapted, allowing our suppliers only to use sustainable palm oil.

Furthermore, EDEKA is a full member of the German Forum for Sustainable Palm Oil (FONAP). EDEKA's aim is to achieve as soon as possible 100% segregated palm oil in our private label products. Therefore we are currently engaged in an FONAP working group to develop feasible goals in a step-by-step approach. This includes the inclusion of additional requirements, which are as follows:

- No illegal FFBs
- Disclosure of GHG gas emissions
- No peat-land and HCV land-use change
- No use of critical pesticides e.g. WHO class 1 a & b

Furthermore we want to start a smallholder Project within our Membership in FONAP.

In addition, EDEKA has set itself the target of achieving at least 30 percent of the palm oil used in EDEKA own products by 2020, which are in line with the verification of the Palmoil Innovation Group (POIG).

Reasons for Non-Disclosure of Information**6.1 If you have not disclosed any of the above information, please indicate the reasons why****Application of Principles & Criteria for all members sectors**

GHG Footprint**8.1 Are you currently reporting any GHG footprint?**

No

Please state if you have any future plans to do so?

Support Smallholders**9.1 Are you currently supporting any independent smallholder groups?**

Yes

If yes, how are you supporting them?

We are member of The Forum for Sustainable Palm Oil (FONAP). The FONAP runs a smallholder Project. As a member we are also participating in this Project.

Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

We have encountered an enormous complexity of the global supply chain of palm oil. EDEKA and the WWF, as Partners for Sustainability, are working towards making palm oil production as environmentally and socially compatible as possible. Furthermore, we are constantly working with our suppliers to help them find sources of sustainable palm oil in case they face difficulties obtaining sustainable palm oil sources for our own brand products.

2 In addition to the actions already reported in this ACOP how has your organization supported the vision of RSPO to transform markets in other ways? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

We are a member of FONAP in Germany. Within our Membership we work on the upcoming Review of the RSPO P&C's in 2018. Our aim is to improve the Standard and develop RSPO into more sustainability.
