## Challenges

**1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?**

Legal uncertainty and weak law enforcement due to overlapping of authority and conflicting interests among different government agencies in central, provincial and district level. Governance in natural resource management in Indonesia remains challenging in making sustainability a norm in palm oil industry. Changing of laws and government policies driven by political motives and interests discourage investment in sustainability, notably in the implementation of sustainable palm oil for smallholders.

---

**2 In addition to the actions already reported in this ACOP how has your organization supported the vision of RSPO to transform markets in other ways? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)**

Goodhope is actively involve in advocating sustainable palm oil in various stakeholders forum, including business associations, private sector and NGOs. The company is also supporting other palm oil companies to subscribe RSPO standards and platform. We are also active in a number of RSPO forums, such as Task Forces
