Trademark Related

4.1 Do you use or plan to use the RSPO Trademark on your own brand of products?

Yes

Please state which product range(s) and market(s) you intend to apply the Trademark and when you plan to start using the Trademark.

We use the RSPO trademark in our solid soaps. Our brand is Real saboaria, so we have started with palm oil products first without any RSPO certification, but we start this 2018 year changing our formulation to RSPO so, at the moment, our solid soaps, of our own brand, are with RSPO certification.

Year: 2018

7.3 Your answers above indicate that you are not yet using 100% RSPO certified palm oil and oil palm products. Do you have plans to immediately cover the gap using Book & Claim?

No

Please explain why

No, our main clientes don't have interest in this certification yet, so they are not motivated to go foward this.

GHG Footprint

8.1 Are you currently reporting any GHG footprint?

No

Please explain why

No for the moment, we don't have plans for that.

Support for Smallholders

9.1 Are you currently supporting any independent smallholder groups?

No

Do you have any future plans to support independent smallholders?

No

Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

Here in Portugal we don't have a lot of choice to have, for instance, segregated RSPO soap base noodles, so we have some difficulties in finding other suppliers, in that way we don't have competitive prices.

2 In addition to the actions already reported in this ACOP how has your organization supported the vision of RSPO to transform markets in other ways? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

In our perspective this soap base stills very expensive, so our customers don't want to change, at least for the moment, maybe if we find better prices for the soap base.
