No

Please explain why

We do not manufacture any of our own products.

Actions for Next Reporting Period

5.1 Outline actions that you will take in the coming year to promote the use of RSPO certified sustainable palm oil and oil palm products along the supply chain

We will continue to train all our employees in sustainable raw materials, and will strive to replace the last few minor ingredients that we have currently been unable to get RSPO palm variants for.

Reasons for Non-Disclosure of Information

6.1 If you have not disclosed any of the above information, please indicate the reasons why

Application of Principles & Criteria for all members sectors

7.1 Related to your sourcing, do you have (a) policy/ies, that are in line with the RSPO P&C such as:

Water, land, energy and carbon footprints

Uploaded file: [M-Policies-to-PNC-waterland.pdf](#)

For administration purpose, attachment files are renamed automatically

Land Use Rights

Ethical conduct and human rights

Labour rights

Stakeholder engagement

None of the above

7.2 What best practice guidelines or information has your organization provided in the past year to facilitate the uptake of RSPO certified sustainable palm oil and oil palm products? What languages are these guidelines available in?

Comment:

Part of our employee training includes a section on sustainable raw materials. As far as practically possible we only use raw materials that contain RSPO certified pal, even in the manufacture of products for customers that don't request it.

7.3 Your answers above indicate that you are not yet using 100% RSPO certified palm oil and oil palm products. Do you have plans to immediately cover the gap using Book & Claim?

No

Please explain why

99.7% of the palm oil we buy is RSPO certified, we have a few minor ingredients where we have been unable to find an RSPO certified replacement, we are still working to replace these.

However the manufacture process for our cakes has an average waste level of over 5% so we currently sell less RSPO palm than we buy in

GHG Footprint

8.1 Are you currently reporting any GHG footprint?

No

Please explain why

We do report our GHG emissions to one of our major customers, but we currently have no plans to report this more widely.

Support for Smallholders

9.1 Are you currently supporting any independent smallholder groups?

No

Do you have any future plans to support independent smallholders?

No

Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

It is difficult to get some technical baking ingredients that contain small amounts of palm as RSPO certified. We are applying as much pressure as we can on the suppliers to change this, we are also exploring alternative ingredients

2 In addition to the actions already reported in this ACOP how has your organization supported the vision of RSPO to transform markets in other ways? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

training for all employees on sustainable raw materials
