## Challenges

**1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?**

Some customer still can't take the RSPO premium, especially for the commodity products or very competitive products.

---

**2 In addition to the actions already reported in this ACOP how has your organization supported the vision of RSPO to transform markets in other ways? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)**

We did do business to business education by educating our distributors about the merit and rules of RSPO. They will then reach to the manufacturer to promote the RSPO products.
