Actions for Next Reporting Period**7.1 Outline actions that you will take in the coming year to advance your plans for certification**

To advance certification process, we will continue to maintain our 100% RSPO certification rate for our scheme smallholders and will start to explore funding opportunities for independent smallholders certification. In addition to that, we have been in collaboration with third parties (e.g. our collaboration with IDH and Yayasan Setara Jambi since 2016) to ensure that we will continue to keep our 100% rate of FFB traceability, and also we will continue to establish partnerships for this matter.

7.2 Outline actions that you will take in the coming year to promote CSPO along the supply chain

We will continue our effort to keep our 100% rate of FFB traceability so that CSPO could be promoted along the supply chain.

Support Smallholders

9.1 Are you currently supporting any independent smallholder groups?

Yes

9.2 How are you supporting them?

Right now, our collaboration with IDH and Yayasan Setara Jambi is still running to support the independent smallholders in Jambi area and we also plan to establish similiar partnerships in other areas. Furthermore, we also plan to grant support for the independent smallholders for RSPO certification through RSSF.

Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

We faced an obstacle in regards to RSPO complaint panel mechanism. We think that there should be a clearer discretion on the matter of who should bear the verification cost by certification bodies if it's a direct request from RSPO. Moreover, in the case of complaints from third parties, we think that RSPO should inform the growers first before publishing the company's name on the RSPO website.

2 In addition to the actions already reported in this ACOP how has your organization supported the vision of RSPO to transform markets in other ways? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

In addition to the actions already reported before, we also have been proactively engaging key stakeholders through workshops, trainings and working groups.
