Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

Many plantation companies have been facing with the social issues, relationship with community surrounding plantation and mill in some case problematic. This is a big concern. Social issues become constraint to get RSPO certificate. Companies are still lacking to invest more on the social management aspect to resolve social issues. For this issues we have cooperate with companies to develop social management that build better community-company relationship. Second, awareness and willingness to improve the Human Resources Capacity is also one of important element to sustainability. We organize training to help company improve its human resources skill and knowledge in sustainability.

2 In addition to the actions already reported in this ACOP how has your organization supported the vision of RSPO to transform markets in other ways? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

Engagement through providing consultancy services, public discussion and training and also B to B through konsultancy services, training, public share of information on sustainability by social media managed by Remark Asia social media.
