## Challenges

**1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?**

Too many markets are not interested in sustainability, but only in price. Taking all costs on our side will put our commercial local presence at risk. Availability of certain subfractions and minimal quantities to order. Where premium put the rentability at risk, the business reality must adapt and be less strict.

---

**2 In addition to the actions already reported in this ACOP how has your organization supported the vision of RSPO to transform markets in other ways? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)**

We are one of the founding members of the BASP.
