Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

RSPO takes up a lot of time, bearing in mind that SEPA is a volunteer organisation and we have our day jobs. RSPO needs to rethink its policies on many aspects and not expect all members to have so much time on their hands. The amount of time needed takes us away from our normal jobs.

2 In addition to the actions already reported in this ACOP how has your organization supported the vision of RSPO to transform markets in other ways? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

Engagement with stakeholders which includes government agencies.

3 File -Please attach or add links to any other information from your organisation on your policies and actions on palm oil (EG: sustainability reports, policies, other public information)
