**Support for Smallholders****9.1 Are you currently supporting any independent smallholder groups?**

Yes

We are currently purchasing certification from smallholder groups.

## Challenges

**1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?**

Requisite certified derivatives for our products are not available at the Japanese market. General awareness on the certificate is not developed enough. The price and volume of certified PKO and its derivatives are hardly appropriate to our demands.

---

**2 In addition to the actions already reported in this ACOP how has your organization supported the vision of RSPO to transform markets in other ways? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)**

We are making efforts to develop general awareness through our products, and trying to establish the collaboration with certain influential social networks.
