Support Smallholders

9.1 Are you currently supporting any independent smallholder groups?

Yes

9.2 How are you supporting them?

Since May 2017, they are 2 formal cooperatives. We sign a PPP (Public Private partnership) with GIZ and NUTRISWISS about implementing sustainable palm oil supply chain in Madagascar We start the process to secure their land with government project : CASEF . HCV assesment (PROFOREST) / new planting process will start in 2018

Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

1) French language should be encourage to incorporate more smallholders here in Africa (Ivory coast, Cameroun, Bénin, Guinée, Burkina Faso.....) . 2) The surveillance audit coast the same as a main audit: cost effective is not affordable for a small company like us: RSPO have to consider smallgrower economic viability for individual certification 4) We need to interact between certified grower /mill: internet forum

2 In addition to the actions already reported in this ACOP how has your organization supported the vision of RSPO to transform markets in other ways? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

We only sell our product to certified RSPO companies. We want to promote exclusively Identity Presserved CSPO labeling. We apply for POIG instead of RSPO NEXT even if our Our policy already include: (No Deforestation, No Fire, No Planting on Peat, Respect for Human Rights and Transparency)because of demand.
