Challenges

1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

In Johor state, there is both RSPO Certified Mills & non RSPO certified mills. The procurement of Palm Kernels from RSPO certified mills are limited to few big plantation houses only. When more / new RSPO certified crushers come online and win away CSPK from major suppliers. The supply of CSPK will shrink and may derail CS PK crushers from meeting their targets. Even if every one are fully committed to the RSPO initiative.

2 In addition to the actions already reported in this ACOP how has your organization supported the vision of RSPO to transform markets in other ways? (e.g. Funding; Engagement with key stakeholders; Business to business education/outreach)

We are supporting the vision of RSPO by participating in RSPO initiated activities and educating our stakeholders on the purpose and objectives of the RSPO initiative.
