## Processors & Traders

### Operational Profile:

---

 Please state what your main activities are : | Refiner of CPO and CPKO | Post-refinery  
 within the supply chain: processor | Trader | Ingredient manufacturer |  
 Animal feed supplier
 

---

### Operations and certification progress

---

Crude Palm Oil - Total Volume per year (mt)	: Handled : 490,000	Certified : 95,000
---	---------------------	--------------------

---

Palm Kernel Oil - Total Volume per year (mt)	: Handled : 170,000	Certified : 1,000
--	---------------------	-------------------

---

Palm Kernel - Total Volume per year (mt)	: Handled : 0	Certified : 0
All other palm oil derivatives and fractions - Total Volume per year (mt)	: Handled :	Certified :
Total volume of palm oil and derived products handled per year? (mt)	: Handled : 660,000	Certified : 96,000
Of the total volume handled, how much of this is sourced from external sources? (by volume) (mt)	: Handled : 660,000	

### Number of RSPO certified supply chain facilities:

Total number of facilities handling Crude Palm Oil and/or derivatives)	: 10
Number of facilities certified for IP / SG / MB supply chains	: 8
Do you utilise GreenPalm / Book & Claim?	: yes

### What is the total volume of RSPO Certified Sustainable Palm Oil within each supply chain model?

Identity Preserved (mt)	: 0
Segregation (mt)	: 75,000
Mass Balance (mt)	: 1,000
GreenPalm/ Book&Claim (mt)	: 20,000

### Time-bound plan

Time-bound plan - Year expected to achieve 100% supply chain certification

2013

What are your interim milestones towards achieving this CSPO Commitment (year and progressive CSPO%) - please state annual targets/strategies

All principal operating sites are certified for segregated and mass balance. Sites not certified have been acquired recently and plan to be certified within the next year, or process relatively small quantities (less than 1% of the AAK total).

Time-bound plan - Year expected to supply 100% certified sustainable palm oil

2015, subject to supply

What are your interim milestones towards achieving this CSPO Commitment (year and progressive CSPO%) - please state annual targets/strategies

As an intermediary, AAK's progress towards 100% certified sustainable palm oil is subject to availability of supply and, to some extent, on demand from customers. AAK continues to demand that suppliers meet the AAK Supplier Code of Conduct requirements, and are members of the RSPO, implying a time bound plan for certification. AAK also actively encourages customers to participate in RSPO approved supply chains. In particular, AAK believes that GreenPalm provides the best incentive for producers who are not able to supply areas of high demand for certified sustainable material.

### **Targets for next reporting period**

---

Outline actions that will be taken in the coming year to promote sustainable palm oil:

---

AAK was a founder member of the RSPO and has been an Executive Board member ever since. AAK will seek re-election to the EB at RT10. In addition, AAK is actively involved in the Trade and Traceability Standing Committee and the Communication and Claims Standing Committee and in national industry bodies in Sweden, Denmark, the UK, the USA and Mexico. One of AAK's most significant contributions has been the conception, development, management and promotion of GreenPalm, the RSPO's most successful supply chain option by far. AAK will continue to promote GreenPalm, in particular being involved in promotion to smallholders, who have had limited success to date in becoming certified.
