Palm Oil Policy

Palm oil continues to be an ingredient of particular focus for Donut Time in our responsible sourcing effort. Palm oil is grown and produced in Southeast Asia and widely used in foods. The rapid expansion of palm oil production has been assorted with human rights violations and the destruction of tropical forest habitats and peat lands

Donut Time is committed to ensuring that the palm oil contained in our products is responsibly and sustainably sourced. We will continue to work with our suppliers to move toward RSPO (Roundtable on Sustainable Palm Oil) certified palm oil and palm kernel oil. Our goal is that all palm oils used in Donut Time Products will be 100% RSPO certified.

In addition, we support practices to help achieve zero net deforestation and support smallholders. Accordingly, our goal is for all Donut Time suppliers to ensure no deforestation in our palm oil supply based on the following principles.

- 1. Compliance with RSPO standards
- 2. Commitment to traceable and transparent palm oil supply chains
- 3. Protect forests ,Äì no development of High Conservation Value (HCV) areas and High Carbon Stock (HCS) forest, and no burning to clear land for new development or replanting
- 4. Protect peat lands ,Äì No new development on peat areas and the use of the Best Management Practices for existing plantations on peat lands
- 5. Support the inclusion of smallholders into sustainable supply chains
- 6. Protect human and labor rights ,Äi Respect and recognize the rights of all workers regardless of gender, prohibit use of forced and child labor, and human trafficking.
