10. Challenges
10.1 What significant economic, social or environmental obstacles have you encountered in the production, procurement, use and/or promotion of CSPO and what efforts did you make to mitigate or resolve them?

- Awareness of RSPO in the market
- Difficulties in the certification process
- Certification of smallholders
- Competition with non-RSPO members
- High costs in achieving or adhering to certification
- Human rights issues
- Insufficient demand for RSPO-certified palm oil
- Low usage of palm oil
- Reputation of palm oil in the market
- Reputation of RSPO in the market
- Supply issues
- Traceability issues
- Others

Other:
It is difficult to manage the entire supply chain until products are delivered to customers in Japan’s complex logistics environments. However, we invited our subcontractors to deepen their understanding by holding study sessions on the importance of RSPO and the requirements for SC certification at the annual meetings with relevant subcontractor. It is difficult to get the understanding from some customers of the increased costs related to CSPO premiums, but we persistently explain RSPO’s philosophy.

10.2 In addition to the actions already reported in this ACOP how has your organisation supported the vision of RSPO to transform markets in other ways?

- Engagement with business partners or consumers on the use of CSPO
- Engagement with government agencies
- Promotion of CSPO outside of RSPO venues eg trade workshops industry associations
- Promotion of physical CSPO
- Providing funding or support for CSPO development efforts
- Research & Development support
- Stakeholder engagement
- Others

Other:
We conducted the study sessions on the importance of RSPO and the requirements for SC-certification at the annual meetings attended by logistics subcontractors.
