1. Operational Profile

1.1 What are the main activities of your organisation?

CDP runs the global environmental disclosure system. Each year CDP supports thousands of companies, cities, states and regions to measure and manage their risks and opportunities on climate change, water security and deforestation. We do so at the request of their investors, purchasers and city stakeholders. Each year, CDP takes the information supplied in its annual reporting process and scores companies and cities based on their journey through disclosure and towards environmental leadership. Through our independent scoring methodology, we measure corporate and city progress and incentivize action on climate change, forests and water security.

1.2 What activities has your organisation undertaken to promote sustainable palm oil, the RSPO and/or RSPO members in the reporting period?

Through the CDP forest questionnaire, we raised awareness of the importance of sustainable palm oil production and supply chain among companies. Additionally, through scoring, CDP incentivizes companies to increase their volume of no-deforestation-compliant certified palm oil, which includes RSPO Segregated, Identity Preserved, etc.

1.3 What percentage of your organisation's overall activities focus on palm oil?

10.0%

1.4 Did members of your organisation participate in RSPO working groups and/or taskforces in the reporting period?

No

1.5 Does your organisation have any past or on-going collaborations with public or private sector palm oil industry players to support them in their efforts to increase the production or consumption of certified sustainable palm oil (CSPO)?

Yes

1.6 How is your organisation's work on palm oil funded?

CDP's palm oil work is funded through a combination of our own funding and grants

2. Actions for Next Reporting Period

2.1 Please outline activities that your organisation will take in the coming year to promote the production or consumption of certified sustainable palm oil (CSPO)

CDP will continue raise awareness on the importance of achieving sustainable palm oil production and supply chains in 2024. Several activities including:

1. Webinar on forest disclosure including certification - Global
 2. Webinar on forest disclosure including certification - China
 3. Webinar on forest disclosure including certification - Indonesia
 4. Develop business case for deforestation and conversion free commodity supply chain

Challenges and Support

1.1 What significant obstacles or challenges has your company encountered in the promotion of certified sustainable palm oil (CSPO)? What efforts has your company taken to address these obstacles or challenges?

- Awareness of RSPO in the market
- Difficulties in the certification process
- Certification of smallholders
- Competition with non-RSPO members
- High costs in achieving or adhering to certification
- Human rights issues
- Insufficient demand for RSPO-certified palm oil
- Low usage of palm oil
- Reputation of palm oil in the market
- Reputation of RSPO in the market
- Supply issues
- Traceability issues
- No challenges faced
- Others

CDP data found that companies reported that complexity of supply chain including traceability is the main challenge in achieving sustainable palm oil supply chain. To address this issue, CDP raised companies awareness on the importance of collaboration in the production landscape through landscape/ jurisdictional approaches to complement their existing actions to remove deforestation from palm oil supply chain.

1.2 In addition to the actions already reported in this ACOP report, what other ways has your company supported the vision of the RSPO to transform markets to make sustainable palm oil the norm?

- Communication and/or engagement to transform the negative perception of palm oil
- Engagement with business partners or consumers on the use of CSPO
- Engagement with government agencies
- Engagement with peers and clients
- Promotion of CSPO through off product claims
- Promotion of CSPO outside of RSPO venues such as trade workshops or industry associations
- Promotion of physical CSPO
- Providing funding or support for CSPO development efforts
- Research & Development support
- Stakeholder engagement
- No actions taken
