About Your Organisation

1.1 Member Name

The Netherlands Feed Industry Association (NEVEDI)

1.2 Membership Number

8-0085-08-000-00

1.3 Membership Sector

Organisations

1.4 Membership Category

Affiliate

1.5 Country

Netherlands

2.0 Does your company or organisation produce, process, consume or sell any palm oil or any products containing derivatives of palm oil?

No

2.2 Please select all the sectors that best describe the business activities of your company or organisation, including your primary RSPO membership sector. You may select multiple sectors and will be required to complete the ACOP form for the relevant sectors

- I am a bank or financial institution that finances or supports companies or organisations that produce or manufacture palm oil, palm kernel oil or related products
- I am a conservation and environmental NGO supporting the sustainable development of the palm oil industry
- I am a social and human development NGO supporting the sustainable development of the palm oil industry
- I am an Affiliate member of the RSPO, indirectly involved in the palm oil industry

Affiliates

1. Operational Profile

1.1 What are the main activities of your organisation?

Nevedi (The Dutch Feed Industry Association) protects the interests of the Dutch feed industry. About 100 Feed companies and suppliers are associated with Nevedi. This represent more than 95% of the total feed production for livestock in the Netherlands. The members are producers of compound feed, milk replacers and premix additives as well as wet feed suppliers. The volume of compound feed sold in the Netherlands by the members of Nevedi is about 11 million metric tons. The main focus of Nevedi is on the subjects: good labour practices, food safety and feed quality and sustainability and innovation.

1.2 What activities has your organisation undertaken to promote sustainable palm oil, the RSPO and/or RSPO members in the reporting period?

Nevedi is a member of the Dutch Alliance Sustainable Palm Oil (DASPO) and attended several meetings. Practical information has been shared on the members website about RSPO, buying credits and about sustainable palm in general. Together with the DASPO we continue to promote the use of CSPO in governmental policies, expand our focus towards more CSPO in affiliated sectors (like food service) and increase cooperation with other initiatives to promote the use of CSPO/RSPO in animal feed. Our target is to promote a use of 100% CSPO for feed produced for the Dutch animal product supply chain.

1.3 What percentage of your organisation's overall activities focus on palm oil?

8.0%

1.4 Did members of your organisation participate in RSPO working groups and/or taskforces in the reporting period?

No

1.5 Does your organisation have any past or on-going collaborations with public or private sector palm oil industry players to support them in their efforts to increase the production or consumption of certified sustainable palm oil (CSPO)?

Yes

1.6 How is your organisation's work on palm oil funded?

Nevedi (as an association) is funded by membership fees, paid by our members. So all our activities, including those on palm oil, are paid by the sum of all membership fees received.

2. Actions for Next Reporting Period

2.1 Please outline activities that your organisation will take in the coming year to promote the production or consumption of certified sustainable palm oil (CSPO)

We continue to participate in the DASPO (see 1,2). We will maintain and reinforce cooperation with our suppliers and off takers represented by the different animal production chains. Also supported by the new EU deforestation regulation, we will support our members with implementation of deforestation-free products.

Challenges and Support

1.1 What significant obstacles or challenges has your company encountered in the promotion of certified sustainable palm oil (CSPO)? What efforts has your company taken to address these obstacles or challenges?

- Awareness of RSPO in the market
- Difficulties in the certification process
- Certification of smallholders
- Competition with non-RSPO members
- High costs in achieving or adhering to certification
- Human rights issues
- Insufficient demand for RSPO-certified palm oil
- Low usage of palm oil
- Reputation of palm oil in the market
- Reputation of RSPO in the market
- Supply issues
- Traceability issues
- No challenges faced
- Others

Others

-

1.2 In addition to the actions already reported in this ACOP report, what other ways has your company supported the vision of the RSPO to transform markets to make sustainable palm oil the norm?

- Communication and/or engagement to transform the negative perception of palm oil
- Engagement with business partners or consumers on the use of CSPO
- Engagement with government agencies
- Engagement with peers and clients
- Promotion of CSPO through off product claims
- Promotion of CSPO outside of RSPO venues such as trade workshops or industry associations
- Promotion of physical CSPO
- Providing funding or support for CSPO development efforts
- Research & Development support
- Stakeholder engagement
- No actions taken
- Others
