About Your Organisation

1.1 Member Name

ERREPPI S.R.L.

1.2 Membership Number

8-0289-23-000-00

1.3 Membership Sector

Organisations

1.4 Membership Category

Affiliate

1.5 Country

Italy

2.0 Does your company or organisation produce, process, consume or sell any palm oil or any products containing derivatives of palm oil?

No

2.2 Please select all the sectors that best describe the business activities of your company or organisation, including your primary RSPO membership sector. You may select multiple sectors and will be required to complete the ACOP form for the relevant sectors

- ☐ I am a bank or financial institution that finances or supports companies or organisations that produce or manufacture palm oil, palm kernel oil or related products
- ☐ I am a conservation and environmental NGO supporting the sustainable development of the palm oil industry
- ☐ I am a social and human development NGO supporting the sustainable development of the palm oil industry
- ☒ I am an Affiliate member of the RSPO, indirectly involved in the palm oil industry

Affiliates

1. Operational Profile

1.1 What are the main activities of your organisation?

ERREPPI S.R.L. specializes in the design and manufacture of compact, highly maneuverable tractors and mechanized solutions specifically engineered for the collection and in-field transport of Fresh Fruit Bunches (FFB) and Empty Fruit Bunches (EFB) within oil palm plantations. Our equipment is tailored to the unique operational and environmental challenges of tropical agriculture, supporting the mechanization and productivity of smallholder and industrial plantations. By facilitating efficient FFB/EFB handling, our technologies contribute directly to the reduction of harvest losses, improved working conditions, and overall sustainability in palm oil production.

1.2 What activities has your organisation undertaken to promote sustainable palm oil, the RSPO and/or RSPO members in the reporting period?

During the reporting period, ERREPPI S.R.L. developed and promoted a dedicated line of low-emission, fuel-efficient tractors specifically designed for oil palm plantations. These machines are engineered to minimize environmental impact by reducing fuel consumption and enabling more sustainable in-field logistics. Additionally, we actively supported gender inclusion in plantation operations by promoting the use of our tractors among female operators. The simplicity of our mechanical interface and ergonomic design make them accessible to women, thus contributing to gender equality and the empowerment of female workers in the palm oil sector. Through these initiatives, we aim to align our innovation and outreach with the core principles of sustainable palm oil and the values promoted by RSPO.

1.3 What percentage of your organisation's overall activities focus on palm oil?

95.0%

1.4 Did members of your organisation participate in RSPO working groups and/or taskforces in the reporting period?

No

1.5 Does your organisation have any past or on-going collaborations with public or private sector palm oil industry players to support them in their efforts to increase the production or consumption of certified sustainable palm oil (CSPO)?

Yes

1.6 How is your organisation's work on palm oil funded?

ERREPPI S.R.L.'s activities in the palm oil sector are funded primarily through internal reinvestment of commercial revenues generated from the sale of our tractors and mechanized equipment to plantation operators and supply chain actors. These funds support ongoing research and development efforts aimed at improving machine performance, reducing fuel consumption, and increasing productivity in a sustainable and socially inclusive manner. To date, no external grants or subsidies have been used; our strategy is grounded in a market-driven approach that aligns business growth with the promotion of RSPO-aligned practices

2. Actions for Next Reporting Period

2.1 Please outline activities that your organisation will take in the coming year to promote the production or consumption of certified sustainable palm oil (CSPO)

Although ERREPPI S.R.L. is not directly involved in the production or trade of palm oil, we contribute to the promotion of certified sustainable palm oil (CSPO) through the development and dissemination of equipment that supports responsible and sustainable practices at the plantation level. In the coming year, we plan to continue showcasing our fuel-efficient, low-emission machinery at international trade shows, technical workshops, and through digital communication channels. We will also engage with RSPO members and industry stakeholders to raise awareness about the operational and environmental benefits of mechanization. Furthermore, we are committed to sharing case studies and field experiences that highlight how our solutions support better working conditions and environmental stewardship in palm oil plantations.

Challenges and Support

1.1 What significant obstacles or challenges has your company encountered in the promotion of certified sustainable palm oil (CSPO)? What efforts has your company taken to address these obstacles or challenges?

- ☐ Awareness of RSPO in the market
- ☐ Difficulties in the certification process
- ☒ Certification of smallholders
- ☐ Competition with non-RSPO members
- ☐ High costs in achieving or adhering to certification
- ☒ Human rights issues
- ☐ Insufficient demand for RSPO-certified palm oil
- ☐ Low usage of palm oil
- ☒ Reputation of palm oil in the market
- ☐ Reputation of RSPO in the market
- ☐ Supply issues
- ☐ Traceability issues
- ☐ No challenges faced
- ☐ Others

Others

-

1.2 In addition to the actions already reported in this ACOP report, what other ways has your company supported the vision of the RSPO to transform markets to make sustainable palm oil the norm?

- ☒ Communication and/or engagement to transform the negative perception of palm oil
- ☒ Engagement with business partners or consumers on the use of CSPO
- ☐ Engagement with government agencies
- ☐ Engagement with peers and clients
- ☐ Promotion of CSPO through off product claims
- ☐ Promotion of CSPO outside of RSPO venues such as trade workshops or industry associations
- ☐ Promotion of physical CSPO
- ☐ Providing funding or support for CSPO development efforts
- ☒ Research & Development support
- ☐ Stakeholder engagement
- ☐ No actions taken
- ☐ Others
