We continue to engage suppliers to encourage the development of physical supply chain options for the palm derived materials we source. In addition, our network of manufacturing locations that have secured RSPO Supply Chain Certification numbers some 35 individual sites located across the UK, Netherlands, Italy, Spain, Poland, United States, Brazil, Australia, New Zealand Thailand and China. We have numerous individual businesses who have already achieved the transition to 100% physical certified supply. In Europe, our branded grocery businesses have also achieved 100% physically certified supply into their operations and supply chains. However, geographical challenges make this more difficult to achieve in certain manufacturing locations and also in our B2B businesses where end customer demand for certified input into their finished products does not exist. As such, we continue to explore commercially viable supply of physical certified inputs - but without demand, it remains a challenge to evolve the market in certain industries or particular geographies. Ongoing engagement with our customers will continue to deliver their needs and also, to influence and support the move to certified sustainable palm products.
