

## Particulars

### About Your Organisation

#### 1.1 Member Name

KOPERASI PRODUSEN MANDIRI KARYA MAJU

#### 1.2 Membership Number

1-0513-25-000-00

#### 1.3 Membership Sector

Oil Palm Growers

#### 1.4 Membership Category

Ordinary

#### 1.5 Country

Indonesia

### 2.0 Does your company or organisation produce, process, consume or sell any palm oil or any products containing derivatives of palm oil?

Yes

### 2.1 Please select ALL the palm oil-related activity(ies) that describe your company or organisation as multiple selections are allowed. ACOP reporting is NOT limited to the primary sector of the member's RSPO membership. You will be required to complete the relevant ACOP section based on your selection(s).

- ☐ I own and operate oil palm estate(s)
- ☒ I represent a palm oil Independent Smallholder farmer Group
- ☐ I own and operate palm oil mills
- ☐ I own and operate palm kernel crushing plants - Processors and/or Traders
- ☐ I trade or broker palm oil, palm kernel oil or related products - Processors and/or Traders
- ☐ I am a refiner of palm oil or palm kernel oil - Processors and/or Traders
- ☐ I am a processor of intermediate (B2B) palm oil, palm kernel oil or related fractions/derivatives - Processors and/or Traders
- ☐ I am a B2B distributor or wholesaler of palm oil, palm kernel oil or related products - Processors and/or Traders
- ☐ I manufacture final consumer (B2C) products containing palm oil, palm kernel oil or related products. This includes products manufactured by 3rd party contractors - Consumer Goods Manufacturers
- ☐ I retail final consumer (B2C) products containing palm oil, palm kernel oil or related products - Retailers
- ☐ I operate food retail outlets that use palm oil, palm kernel oil or related products - Retailers
- ☐ I am a conservation and environmental NGO supporting the sustainable development of the palm oil industry
- ☐ I am a social and human development NGO supporting the sustainable development of the palm oil industry

Smallholder Group Manager

1. Palm Oil and Certified Sustainable Palm Oil Production

*Information in Section 1 - Palm Oil and Certified Sustainable Palm Oil Production - is a mandatory declaration in your ACOP. This includes hectarage and volume data, to enable the RSPO to accurately calculate certification on a member, sector and total level. ACOP reports without reported hectarage and volume data will be considered as incomplete and will not be accepted.*

1.1 In which countries are your groups operating?

1.1.1 Indonesia - Please indicate which province(s)

Riau

1.2 Smallholder Group Members Management

1.2.1 Number of smallholder members in the group/s

Gender	Number
Male	235
Female	70
Total	305

1.2.2 Number of members certified under RSPO Group Certification

Gender	Number
Male	0
Female	0
Total	0

**1.3 Changes in Smallholder Group Members****1.3.1 How many new members has joined the group this year?**

<b>Gender</b>	<b>Number</b>
Male	235
Female	70
Total	305

**1.3.2 How many members has left the group this year?**

<b>Gender</b>	<b>Number</b>
Male	0
Female	0
Total	0

**1.3.3 Please explain why there was an increase or decrease in group members**

There was a change in the number of group members due to the preparatory process for RSPO certification. Some members became more committed after understanding the benefits of sustainable palm oil practices, resulting in an increase. However, a few members decided to withdraw due to concerns about the requirements and obligations tied to certification. As of now, the cooperative consists of 305 farmer members managing a total area of 759 hectares.

**1.3.4 Do you expect the number of group members to change in 2025? If so, by how much? This question is not mandatory, and is left to the discretion of the RSPO member to answer.**

Yes, we expect a moderate increase in the number of group members in 2025, estimated at around 5–10%. This projection is based on growing interest from nearby farmers who see the benefits of RSPO certification and the support system provided by the cooperative. We are also actively conducting outreach and education to encourage participation.

**1.4 Land Management**

<b>Description</b>	<b>Hectares</b>
1.4.1 Total land controlled or managed for oil palm cultivation - planted and infrastructure (hectares)	1000.00
1.4.2 Total land controlled or managed for oil palm cultivation - unplanted (hectares)	0.00
1.4.3 Total land designated and managed as HCV areas (hectares)	17.00
1.4.4 Other conservation areas set aside excluding HCV areas reported in 1.4.3	0.00
Total	1017.00

**1.4.6 Total certified area under RSPO Group Certification (hectares)**

0.00

**1.5 New plantings and developments (excluding replantings):****1.5.1 Has your group planted any new land with palm oil during this reporting period, excluding replanted land?**

No

**1.6 Changes in land management****1.6.1 Has there been a change in the land managed by your group this year?**

No Change

**1.6.3 Do you expect the size of the land managed to change in 2025? If so, by how much?**

Yes, we expect a moderate increase in the number of group members in 2025, estimated at around 5–10%. This projection is based on growing interest from nearby farmers who see the benefits of RSPO certification and the support system provided by the cooperative. We are also actively conducting outreach and education to encourage participation.

**1.7 Production of Fresh Fruit Bunches (FFB)****1.7.1 Total FFB produced by your group during this reporting period (tonnes)**

---

26800.00**1.7.2 Total RSPO certified FFB produced by your group during this reporting period (tonnes)**

---

0.00**1.7.3 Please provide the names and locations of the oil palm mills that you are supplying FFB to. This question is not mandatory, and is left to the discretion of the RSPO member to answer.**

---

PT. Inti Indo Sawit, Bukit Agung, Kec. Kerinci Kanan Kabupaten Siak

## 2. Supply Chain Options

*Information in Section 2 - Palm Oil and Certified Sustainable Palm Oil Production - is a mandatory declaration in your ACOP. This includes volume data, to enable the RSPO to accurately calculate certification on a member, sector and total level. ACOP reports without reported volume data will be considered as incomplete and will not be accepted.*

### 2.1 Please indicate the volume sold under each Supply Chain options

Supply Chain Options	Tonnes
IS-CSPO RSPO Credits	0.00
IS-CSPKO RSPO Credits	0.00
IS-CSPKE RSPO Credits	0.00
Physical	0.00
Total	0.00

## 3. TimeBound Plan

### 3.1 Which year did your group achieve (or plans to achieve) its RSPO Group certification

2025

### 3.2 Which year does your group plan to certify 100% of your group members against the RSPO ISH Standard?

2025

## 4. Concession Boundaries

**4.1 The RSPO General Assembly Resolution 6G (2013) calls for all members with Grower operations to submit their concessions boundaries through ACOP. Has your smallholder group submitted complete concession boundaries up to estate level to the RSPO in previous ACOP cycles as per Formatting Requirements for Plantation Boundary Data Submission Guidelines?**

No

**4.3 Please upload your group's updated estate location concession boundaries in Shapefile format here. This requirement only applies if your group has made changes to its concession boundary from previous submissions in ACOP or if the group is submitting concession boundaries through ACOP for the first time**

## 5. Challenges

### 5.1 What significant obstacles or challenges has your group encountered in the promotion of certified sustainable palm oil (CSPO) or certified FFB? What efforts has your group taken to address these obstacles or challenges?

- ☐ Awareness of RSPO in the market
- ☒ Difficulties in the certification process
- ☒ Certification of smallholders
- ☐ Competition with non-RSPO members
- ☐ Funding/Financial resources
- ☒ High costs in achieving or adhering to certification
- ☐ Human rights issues
- ☐ Insufficient demand for RSPO-certified palm oil
- ☐ Lack of access to training on Certification requirements
- ☐ Land/HCV issues
- ☐ Reputation of palm oil in the market
- ☐ Reputation of RSPO in the market
- ☐ No challenges faced
- ☒ Others

Others

One of the main challenges faced by our group is the limited understanding among farmers about the RSPO standards and the benefits of certification. In addition, some farmers are concerned about the costs and administrative requirements involved. To address this, we have conducted regular training, socialization sessions, and one-on-one assistance to improve awareness and understanding. We also work closely with supporting organizations to reduce the financial burden and assist with documentation and compliance.

### 5.2 What positive impact has your group observed in the production of certified CSPO or FFB through your group's membership of the RSPO?

- ☒ Awareness of environmental issues
- ☒ Awareness of human rights issues
- ☐ Federal or state government support
- ☐ Increased demand for palm oil
- ☐ Increased income through trading of credits
- ☐ Increased income through physical trading premiums
- ☐ Mills support
- ☐ No impact observed
- ☒ Others

Others

Through our group's membership in the RSPO and participation in the certification process, we have observed several positive impacts. Farmers have improved their knowledge of Good Agricultural Practices (GAP), leading to better yields and healthier plantations. There is also increased awareness about environmental protection and reduced use of harmful chemicals. Furthermore, the group has developed stronger organizational systems and record-keeping, enhancing transparency and market access.

**5.3 In addition to the actions already reported in this ACOP report, what other ways has your group supported the vision of the RSPO to transform markets to make sustainable palm oil the norm?**

- ☐ Engagement with business partners or consumers on the use of CSPO
- ☐ Engagement with government agencies
- ☐ Promotion of CSPO outside of RSPO venues such as trade workshops or industry associations
- ☐ Promotion of physical CSPO
- ☐ Providing funding or support for CSPO development efforts
- ☐ Research & Development support
- ☐ Stakeholder engagement
- ☐ No actions taken
- ☒ Others

Others

In addition to our internal certification efforts, our group has shared knowledge with neighboring farmer groups about the RSPO process and its benefits. We have also participated in district-level discussions and events to promote sustainable palm oil and strengthen collaboration among stakeholders. These efforts help to raise awareness and expand the adoption of sustainable practices beyond our own members.

**5.4 If your group has any other publicly-available reports or information regarding its palm oil-related policies and activities, please provide the links here**

No publicly
