8. Actions For Next Reporting Period

8.1 Outline activities that your company will undertake in the coming year to advance its certification efforts.

The company is now focusing on including environmental, social, and governance (ESG) values in its daily operations to become more sustainable.

As part of this effort, the company is working on making sure ESG principles are applied in how it runs the business and improving how it puts sustainability practices in place and checks on them across all its sites.

The company is also committed to improving its internal systems by building a stronger structure for carrying out and enforcing these sustainability efforts. Right now, it's working on tightening its procedures to deal with cases where company policies aren't being followed.

8.2 Outline activities that your company will undertake in the coming year to promote the uptake CSPO along the supply chain.

The company is currently looking into ways to support the growth of our Fresh Fruit Bunch (FFB) suppliers and to encourage them to get RSPO certification. This will help increase the production of certified sustainable palm oil (CSPO).

The company is also working on new ideas to produce high-quality, sustainable palm oil to meet customer demands. This is one of the ways the company hopes to encourage more people to use CSPO throughout the supply chain.

To improve traceability—knowing where the palm oil comes from—the company has already had several discussions with its suppliers at the ground level and plans to continue these efforts to better track the supply chain down to the plantation level.

Challenges and Support
