4. TimeBound Plan

4.1 Which year did your company achieve (or plans to achieve) its first RSPO P&C certification?

('2013')

4.2 Which year did your company achieve (or plans to achieve) 100% RSPO certification for all its estates and mills?

('2026')

4.2.1 If the previous target year for G.4.2 has not been met, please explain why

TDM Plantation Sdn. Bhd. acquired the TDM-YT Bukit Bidong Estate from Tabung Haji Plantation Bhd. in August 2020. At the time of acquisition, the estate was already certified under the Malaysian Sustainable Palm Oil (MSPO) scheme but had yet to obtain certification under the Roundtable on Sustainable Palm Oil (RSPO). Due to financial losses incurred in 2022 and 2023, the estate has deferred its RSPO certification process to 2026, a decision that has been approved by RSPO. As part of its ongoing compliance efforts, the estate has submitted the Land Use Change Analysis (LUCA) report to RSPO for its Remediation and Compensation Procedure (RaCP).

4.3 Which year did your company achieve (or plans to achieve) 100% RSPO certification of scheme smallholders?

2035

4.3.1 If the previous target year for G.4.3 has not been met, please explain why

Convincing the scheme smallholders is a challenging venture.

('2035')

4.4.1 If the previous target year for G.4.4 has not been met, please explain why

Achieving this goal remains challenging, as the company can only raise awareness about RSPO certification during the annual stakeholder consultation meeting. However, despite these efforts, there has been a lack of interest or commitment from stakeholders to pursue RSPO certification. The company continues to engage with relevant parties, highlighting the benefits and importance of certification, but progress remains limited due to their reluctance or other competing priorities.
