All of our suppliers are RSPO members and their refineries have the status of RSPO (IP/SG or MB). We continuously ask the suppliers to make the supply chain sustainable and transparent by using RSPO system. And we are going to promote the RSPO and explain the importance of the sustainable palm oil to the customers. We have "Policy and Basic Concept" for sustainability in the value chain, and support for the Sustainable Procurement of Palm Oil particularly as well. We have updated our policy in FYE24. The policy includes actions we can take as a trader to contribute transparency and sustainability in Palm Oil supply chain, such as trading NDPE oils, securing traceability in the supply chain complexity and selectng suppliers complied with human right policies.

Shared Responsibility

The Board of Governors of the Roundtable on Sustainable Palm Oil approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared Responsibility (SR) requirements will be done through ACOP and MyRSPO. As the process of verification of the reports is in development, the Shared Responsibility section in ACOP may change in future ACOP cycles. Evidence to show compliance to the SR requirements shall be uploaded via your membership profile in MyRSPO. Please login to your MyRSPO account and upload the relevant policies, plans and relevant reports there. If you do not have a policy or your policy does not cover all items, you will be required to provide a Declaration of Support for the relevant policy items in your MyRSPO profile. Additional information on the required policies and plans applicable to all sectors as well as the annual uptake targets for supply chain actors can be found on <https://rspo.org/members/shared-responsibility> or email the Shared Responsibility team at sharedresponsibility@rspo.org.

To ensure that sustainable procurement can be carried out consistently in consideration of human rights and environmental conservation, ITOCHU Corporation makes notice of its Sustainability action guidelines for Supply Chains to its suppliers and undertakes regular communications with them on sustainable procurement through fact-finding surveys and other activities. As a trader, our involvement in the Palm Oil supply chain is limited to the intermediary business and therefore the conditions are decided by customers. Our obstacle for increasing the demand of CSPO in Japan would be mainly the cost, as still the customers paying the premium for RSPO SG/MB are not enough in Japan. In order to pay attention to the sustainable palm oil, we are supporting to provide the information to the market regarding the importance of sustainability in the palm oil industry. For example, we have been involving with the Certified Palm Oil Procurement Committee for the 2020 Olympic and Paralympic Games through the activity as Japan Oil & Fat Importers & Exporters Association (JOFIEA). We are supporting the movement for sustainable palm oil in Japan and contributing to a long term spread of sustainable palm oil. As a result, we managed to increase trade volume of CSPO/RSPO in 2023 compared to 2022. In the future, we will strive to establish a structure in which we can closely cooperate with stakeholders such as suppliers, customers, various certification bodies, etc., in order to achieve the goal of 100% handling of RSPO or equivalent certified palm oil by 2030.

1.2 In addition to the actions already reported in this ACOP report, what other ways has your company supported the vision of the RSPO to transform markets to make sustainable palm oil the norm?
