

Particulars

About Your Organisation

1.1 Member Name

Croda International PLC

1.2 Membership Number

2-0024-06-000-00

1.3 Membership Sector

Palm Oil Processors and/or Traders

1.4 Membership Category

Ordinary

1.5 Country

United Kingdom

2.0 Does your company or organisation produce, process, consume or sell any palm oil or any products containing derivatives of palm oil?

Yes

2.1 Please select all description(s) that describe the palm oil-related activities of your company or organisation. Multiple selections are allowed, and not limited to the primary sector of the member's RSPO membership. You will be required to complete the relevant ACOP section based on your selection(s).

- I own and operate oil palm estate(s) and/or palm oil mill(s)
- I represent a palm oil Independent Smallholder farmer Group
- I own and operate independent palm oil mills
- I own and operate independent palm kernel crushing plants - Processors and/or Traders
- I trade or broker palm oil, palm kernel oil or related products - Processors and/or Traders
- I am a refiner of palm oil or palm kernel oil - Processors and/or Traders
- I am a processor of intermediate (B2B) palm oil, palm kernel oil or related fractions/derivatives - Processors and/or Traders
- I am a B2B distributor or wholesaler of palm oil, palm kernel oil or related products - Processors and/or Traders
- I manufacture final consumer (B2C) products containing palm oil, palm kernel oil or related products. This includes products manufactured by 3rd party contractors - Consumer Goods Manufacturers
- I retail final consumer (B2C) products containing palm oil, palm kernel oil or related products - Retailers
- I operate food retail outlets that use palm oil, palm kernel oil or related products - Retailers
- I am a conservation and environmental NGO supporting the sustainable development of the palm oil industry
- I am a social and human development NGO supporting the sustainable development of the palm oil industry

Processors & Traders

1. Operational Profile

1.1 Please state your company's main activity within the palm oil supply chain.

- Refiner of CPO and PKO
- Palm Kernel Crusher
- Trader with Physical Possession
- Trader without Physical Possession
- Integrated Refiner-Trader-Processor
- Intermediate Products Producer
- Power, Energy and Biofuel Processor
- Animal Feed Producer
- Oleochemicals Producer
- Distribution & Logistics
- Other

Other

-

2. Palm Oil and Certified Sustainable Palm Oil Consumption

Information in Section 2.0 - Palm Oil and Certified Sustainable Palm Oil Sourcing is a mandatory declaration in your ACOP. This includes volume data on palm oil, palm kernel oil and related products consumed of individual members, sectors and RSPO members as a whole. ACOP reports without reported volume data will be considered as incomplete and will not be accepted. Incomplete ACOP reports may lead to suspension or termination of RSPO membership.

2.1 Please include details of all certified and uncertified operations using palm oil, palm kernel oil and related products, owned and/or managed by the member and/or all entities that belong to the group.

All Croda's major manufacturing sites are RSPO certified, currently with 15 sites across the group RSPO certified. We are working to ensure all sites are certified 15 Certified sites : Ditton (UK), Leek (UK), Rawcliffe Bridge (UK), Atlas Point (US), Mill Hall (US), Iberchem (ES), Mevisa (ES), Campinas (BR), Sipo (CN), Crodarom (FR), Chocques (FR), Alban Muller (FR), Sederma (FR), Thane (IN), Singapore (SG), Solus/Croda Korea (KR) , Uncertified Shiga (JP) - Working towards certification by May 2024.

2.1.1 In which markets do you sell goods with palm oil and palm oil-related products?

Europe ,North America ,China,India,Malaysia,Indonesia,Africa ,Latin America ,Rest of the World

DL.2.0 In order to facilitate ease of reporting and transparency, RSPO members operating within the palm oil demand supply chain can now choose to report palm oil and palm oil product volumes on:

an aggregate level (as in previous ACOP reporting cycles)

2.2 Total volume of RSPO-certified (IP, MB, SG and RSPO Credits/Book and Claim) and Non RSPO-certified palm oil, palm kernel oil and related product sourced in the year

Description	Tonnes
Crude palm oil, including derivatives refined from CPO (tonnes)	25055.80
Crude palm kernel oil, including derivatives refined from CPKO (tonnes)	5773.40
Crude palm kernel expeller (tonnes)	0.00
Total	30829.20

2.3 Volume of RSPO-certified palm oil, palm kernel oil and related products sourced in the year (tonnes):

Description	Crude Palm Oil (CSPO) and CSPO Derivatives	Crude Palm Kernel Oil (CSPKO) and CSPKO Derivatives	Palm Kernel Expeller (CSPKE)
RSPO Credits from Mill / Crusher	0.00	0.00	0.00
RSPO Credits from Independent Smallholder	0.00	0.00	0.00
Mass Balance (MB)	22310.10	5715.90	0.00
Segregated (SG)	0.00	0.00	0.00
Identity Preserved (IP)	0.00	0.00	0.00
Total	22310.10	5715.90	0.00

2.4 According to the volume information you have provided in Question PT.2.2 and Question PT.2.3, your company's certified palm oil, palm kernel oil and related products uptake is:

90.91%

2.4.1 Please provide additional information on your certified palm oil, palm kernel oil and related products uptake calculated in PT.2.4. This may include changes due to business environment, evolving nature of operations or variations due to stock positions

In 2023 90.91% of our global palm derivatives consumption was RSPO physically certified by Mass Balance. In Europe and the Americas, we achieved 99.9% transformation to RSPO. We continue to face challenges completing the conversion to 100% RSPO across the group primarily due to slow market progress in Asia.

2.5 What is the estimated percentage of Certified Sustainable Palm Oil in the palm oil, palm kernel oil and related products sold, traded or processed by your company in the following regions:

Countries/Regions	Percentage
Europe	100
North America	100
Malaysia	100
Indonesia	60
China	10
India	97
Latin America	98
Africa	98
Rest of World	95

3. TimeBound Plan**3.1 Which year did your company achieve (or expects to achieve) the RSPO supply chain certification or RSPO trader/distributor licence?**

2012

3.2 Which year did your company start (or expect to start) to source any RSPO-certified palm oil and oil palm products?

2012

3.2.1 If the previous target year has not been met, please explain why.

2012 was the date of the first Croda plant obtaining RSPO Supply Chain Certification to handle mass balance palm derivatives. By the end of 2018, Croda had 14 plants RSPO SCC for mass balance and segregated. Now 16 sites with an acquisition in 2023. These plants process 99% of our palm derivatives volumes.

3.3 Which year did your company achieve (or expects to achieve) 100% RSPO certification of all palm product processing facilities.

2018

3.3.1 If the previous target year has not been met, please explain why.

The 16 RSPO Supply Chain Certified manufacturing sites process 99% of our volume of palm derivatives. All major manufacturing sites were certified by 2017. Two smaller Croda plants were additionally certified in 2018 and a further acquired company added to Croda Group membership in 2021

3.4 Year expected to only source RSPO-certified palm oil and oil palm products.

2024

3.4.1 If target has not been met, please explain why.

Only one manufacturing site, which accounts for less than 0.5% of our palm volume is still reaching for RSPO certification which is expected to be completed by may 2024. Our biggest challenging continues to be conversion to RPSO in China due to lack of availability. For all our main manufacturing sites across the group, we are expected to be 100% RSPO by the end of the year.

3.5 If the TimeBound Plan commitments declared above do not cover all countries in which the member operates, please explain why

TBP commitments apply to all countries and all industries in which we sell palm derived ingredients

4. Actions For Next Reporting Period

4.1 Please outline activities that your company will take in the coming year to promote the production or consumption of certified sustainable palm oil (CSPO)

- Participation in RSPO Working Group or Task Forces
- Support Independent Smallholders (ISH)
- Contribute to the RSPO Smallholder Trainer Academy
- Financial contribution to the RSPO Smallholder Support Fund
- Direct investments in Smallholder Certification projects
- Involvement/direct investments in Jurisdictional/Landscape approach
- Direct/collective investments in conservation and restoration initiatives
- Financial contribution to support members with Remediation and Compensation (RaCP) process, direct/collective investments in conservation and restoration initiatives
- Allocating FTE to promote the production or consumption of certified sustainable oil palm products
- Specific policies and action plans by the member to promote CSPO production or consumption in the upstream or downstream supply chain, including target dates or broader policies that include such efforts
- No activities planned
- Others

Other

Working with Action for Sustainable Derivatives (ASD) we support the Impact Fund Initiative, to build an enabling environment for sustainable palm oil production at scale while empowering local communities. The Fund has officially begun supporting the Inobu-led Mosaik Initiative, which is focused on finding ways to sustainably restore the landscape and drive economic growth in two of the largest palm producing districts in Central Kalimantan, Indonesia – Seruyan and Kotawaringin Barat. Contributing ASD members source on average 8% of their palm derivatives from Central Kalimantan. With the help of Inobu, the two districts, which cover an area almost as large as Belgium, are developing ways to restore forest ecosystems while protecting the remaining forests. Among other activities, the project will: -create a jurisdictional farmers association for agroforestry products to increase their value and encourage local communities to protect and restore natural forests in their villages; - provide upfront financing and technical support for smallholders' sustainable farming practices and RSPO certification; and establish programs to ensure all palm oil production is aligned with sustainability principles and criteria. We have RSPO Supply Chain Certified plants in all regions in which we operate: Europe, Asia, North America and Latin America together with global distribution of our products. This reflects our corporate target to support the physical supply chains for CSPO derivatives as a global issue. Supporting RSPO Certification and physical supply chains is a material issue with time bound corporate targets which are publicly stated on our website and sustainability report. During the reporting period We have participated many industry presentations, panel debates, media interviews and articles on the issues around sustainable palm.

Shared Responsibility

The Board of Governors of the Roundtable on Sustainable Palm Oil approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared Responsibility (SR) requirements will be done through ACOP and MyRSPO. As the process of verification of the reports is in development, the Shared Responsibility section in ACOP may change in future ACOP cycles. Evidence to show compliance to the SR requirements shall be uploaded via your membership profile in MyRSPO. Please login to your MyRSPO account and upload the relevant policies, plans and relevant reports there. If you do not have a policy or your policy does not cover all items, you will be required to provide a Declaration of Support for the relevant policy items in your MyRSPO profile. Additional information on the required policies and plans applicable to all sectors as well as the annual uptake targets for supply chain actors can be found on <https://rspo.org/members/shared-responsibility> or email the Shared Responsibility team at sharedresponsibility@rspo.org.

SR 1. Transparency

1.1 Does your organisation have organisational management documents publicly-available?

Yes

SR 2. Ethical Conduct

1.2 Does your organisation have a publicly-available policy covering Ethical Conduct, including for recruitment and contractors?

Yes

SR 3 and SR 4. Legal Compliance

1.3 Does your organisation comply with all applicable legal requirements?

Yes

1.4 Does your organisation require its third party contractors to comply with legal requirements?

Yes

SR 7. Claims and labels

1.7a Does your organisation promote the use of off-product RSPO claims and labels?

Yes

SR 8. Information and outreach activities

1.8 Does your organisation implement transparent communication and outreach activities to promote sustainable palm oil?

Yes

SR 9. Human Rights

1.9 Does your organisation have a publicly-available Policy on respect for human rights, including for suppliers and sub-contractors?

Yes

SR 10. Complaints & Grievances**1.10 Does your organisation have a Grievance Mechanism that is accessible to all affected parties?**

Yes

1.10.1 Is your Grievance mechanism in line with the principles of the RSPO's Complaints System?

Yes

SR 11 and SR 12. Land Use and FPIC**1.11a Does your organisation have a policy covering Commitment to respect Free Prior and Informed Consent (FPIC) in the operational Palm Oil Supply chain?**

Yes

1.11a.1 Does your organisation have a procedure in place to identify legal, customary or user rights, and people entitled to compensation?

Yes

SR 13 and SR 14. Smallholders inclusion**1.13 Does your organisation support oil palm smallholders (groups)?**

Yes

SR 15 - SR 20. Labour & Labour Rights**1.15 Does your organisation have a publicly-available policy covering Labour & Labour Rights?**

Yes

1.15.1 Does the policy cover:

- No discrimination and equal opportunities
- Pay and conditions of the workers.
- Freedom of association and Collective bargaining
- Protection of children and remediation for suppliers and third party contractors.
- Prevention of all forms of harassment, including sexual harassment
- No forced or trafficked labour

SR 21. Occupational Health & Safety**1.21 Does your organisation have a publicly-available Policy covering Occupational Health & Safety?**

Yes

SR 22. Waste Management**1.22a Does your organisation have a waste management plan that includes reduction, recycling, reusing and disposal based on the hazardous characteristics?**

Yes

1.22a.1 Is this plan implemented?

Yes

SR 23. Water Management**1.23 Does your organisation have a water management plan to promote efficient use and continued availability of water sources?**

Yes

1.23.1 Is this plan implemented?

Yes

SR 24. Energy Use**1.24 Does your organisation have an energy use plan to improve the efficiency of the fossil fuels used and to optimise renewable energy?**

Yes

1.24.1 Are there records of implementation of the plan ie. monitoring and reporting?

Yes

SR 25. Climate Change and Greenhouse Gases (GHG)**1.25 Does your organisation have a publicly-available policy covering Climate Change & Greenhouse Gas (GHG) including identification and assessment of GHG emissions and implementation of a plan to reduce or minimise them?**

Yes

SR 26. Promotion of certification/uptake

1.26b Does your organisation meet the SR CSPO uptake target?

Yes _____

SR 27. Sustainable Palm Oil Policy

1.27a Does your organisation have other relevant policies as a sustainable palm oil sourcing policy?

Yes _____

SR 28 and SR 29. Support and resourcing

1.28 Does your organisation provides services and support to RSPO and resources to implement SR?

Yes _____

Challenges and Support

1.1 What significant obstacles or challenges has your company encountered in the promotion of certified sustainable palm oil (CSPO)? What efforts has your company taken to address these obstacles or challenges?

- Awareness of RSPO in the market
- Difficulties in the certification process
- Certification of smallholders
- Competition with non-RSPO members
- High costs in achieving or adhering to certification
- Human rights issues
- Insufficient demand for RSPO-certified palm oil
- Low usage of palm oil
- Reputation of palm oil in the market
- Reputation of RSPO in the market
- Supply issues
- Traceability issues
- No challenges faced
- Others

Others

During the period of our report, we encountered some obstacles in terms of supply due to the unavailability of certain RSPO SCC derivatives, particularly in Asia. Considering the diverse range of complex ingredients that we produce, many of which are derivatives of derivatives, Mass Balance is currently the only practical option to physically support CSPO. Although not all of our suppliers have RSPO SCC, the number is gradually increasing as awareness spreads throughout the supply chain. Croda has a robust initiative aimed at promoting the use of CSPO derivatives, and during the reporting period, we observed a significant uptake of this approach. We make sure to communicate the relevant issues, targets, and activities to all of our key stakeholders, including our suppliers, customers, investors, local community, and employees through various channels, such as our annual Sustainability Report and summary, our Annual Report & Accounts, our online GRI, our CDP Forest return, and the completion of the ACOP.

1.2 In addition to the actions already reported in this ACOP report, what other ways has your company supported the vision of the RSPO to transform markets to make sustainable palm oil the norm?

- Communication and/or engagement to transform the negative perception of palm oil
- Engagement with business partners or consumers on the use of CSPO
- Engagement with government agencies
- Engagement with peers and clients
- Promotion of CSPO through off product claims
- Promotion of CSPO outside of RSPO venues such as trade workshops or industry associations
- Promotion of physical CSPO
- Providing funding or support for CSPO development efforts
- Research & Development support
- Stakeholder engagement
- No actions taken
- Others

Others

We consistently support the RSPO in all our engagement with customers, press, industry meetings, NGOs, social media and across all industries. The RSPO continually strives to improve the sustainability of palm supply chains and has created the tools to do this. Over the last 10 years Croda has led the transformation in the complex derivative supply chain particularly in Home & Personal Care and other consumer businesses.

1.3 If your company has any other publicly-available reports or information regarding its palm oil-related policies and activities, please provide the links here
